INVESTMENT MANAGER'S REPORT*

2015 was a challenging market globally across asset classes. Commodities were among the worst performing, with substantial underperformance touching nearly all parts of the commodity complex. The Bloomberg Commodities index, which is an aggregate measure of commodities futures, was down -25% on the year, with WTI crude declining -35% and even gold falling -11%. The Dollar continued to strengthen relative to global currencies, with the Dollar Spot index up 9.3% and the Trade Weighted Dollar index up 11.8%. Against this backdrop, the US equities market ended the year essentially flat, the S&P 500 TR index was up 1.38%, with a wide dispersion in sector returns. Consumer discretionary was the best performing, up 8.5%, while energy and materials were the worst performing sectors, down -24% and -10%, respectively. European equities, according to the Stoxx600 index, finished the year in the green, up nearly 7%, but well off the 21% highs it reached at the beginning of the second quarter. Emerging markets, impacted from the commodity sell-off and dollar strength, suffered on the year, with the MSCI EM index declining -16% in 2015. Sovereign and corporate bonds were both down modestly, while high yield bonds were down more significantly, largely driven by the energy weighting within the group.

The O'Connor Opportunistic UCITS fund generated modestly negative returns (-0.20% for the USD P-PF-acc share class) for the period from inception to 31 December 2015. The Merger Arbitrage and Sector-Specific strategies were the top contributing strategies in the period, while the Market Neutral, Asia L/S and Quantitative Fundamental strategies detracted. The most impactful negative strategies during the period were focused on energy, industrials and materials, and despite being sector neutral and beta-neutral, the volatility of underlyings and the technical influences on stock price action proved to be challenging to navigate and resulted in negative performance from these books.

Gross leverage for the fund averaged around 3.6x during the period, but at 31 December 2015 was 2.9x.

*The information stated in this report is historical and not indicative of future performance.

Registered Office: 21 Lombard Street, London, EC3V 9AH. Registered in England No. 2140296. Authorised and regulated by the Financial Conduct Authority. UBS O'Connor Limited is a subsidiary of UBS AG. Telephone calls are recorded.

UBS (Irl) Alternative Solutions plc

DIRECTORS' REPORT

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

The Board of Directors (the "Directors") present herewith the annual report and audited financial statements for the period from 31 October 2014 (date of incorporation) to 31 December 2015.

PRINCIPAL ACTIVITIES, BUSINESS REVIEW AND FUTURE DEVELOPMENTS

UBS (Irl) Alternative Solutions plc (the "Company") was incorporated on 31 October 2014, as an open-ended umbrella investment company with segregated liability between the funds and variable capital, pursuant to the Companies Act 2014 (the "Companies Act"). The Company is authorised in Ireland by the Central Bank (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations"). The Company is structured as an umbrella fund in that different funds (the "Funds" or "Sub-Funds") may be established with the prior approval of the Central Bank. At the date of this report, the sub-fund O'Connor Opportunistic UCITS Fund was authorised by the Central Bank and is active; and the O'Connor Opportunistic UCITS II Fund was authorised by the Central Bank but had not yet commenced trading.

The Statement of Financial Position and the Statement of Comprehensive Income are outlined on page 16 and 17 respectively, providing a review of the business for the period.

The investment objective of the O'Connor Opportunistic UCITS Fund is seeking to earn consistently positive risk adjusted appreciation in the value of its assets. The O'Connor Opportunistic UCITS Fund seeks to achieve its investment objective primarily by employing a number of investment strategies, namely fundamental equity market neutral long/short, quantitative fundamental trading, fundamental long/short equity, merger arbitrage, and opportunistic strategies across all asset classes and all industries.

The Statement of Financial Position and the Statement of Comprehensive Income are outlined on page 16 and 17 respectively, providing a review of the business for the period.

The Directors expect the general level of activity to continue for the foreseeable future.

RESULTS AND DIVIDENDS

The results as at period end and during the period ended 31 December 2015 are shown in the Statement of Financial Position and the Statement of Comprehensive Income on pages 17 and 18 respectively.

DIRECTORS AND COMPANY SECRETARY

Gavin Byrnes (United Kingdom)
Adrian Waters (Ireland) appointed 24 November 2015
John Donohoe (Ireland) appointed 17 November 2015
Donard McClean (Ireland) resigned 25 November 2015
Alan Keating (Ireland) resigned 25 November 2015
David Rochford (Ireland) resigned 26 November 2015
Frank Ennis (Ireland) resigned 3 November 2015

In accordance with the Company's Articles of Association, the Directors are not required to retire by rotation.

DIRECTORS' AND SECRETARY'S INTERESTS IN SHARES

The Directors and Company Secretary who held office during the period ended 31 December 2015 had no interest in the shares, debentures or loan stock of the Company during the period.

Gavin Byrnes is employed with the UBS AG group.

SIGNIFICANT EVENT DURING THE PERIOD

There were significant events during the period that require disclosure in the financial statements. These were as follows:

The Fund was registered in Japan on 16th March 2015.

CORPORATE GOVERNANCE CODE

General Principles

The Company is subject to comply with the requirements of the Companies Act, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank UCITS Regulations"), as applicable to the Company. The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report. The aforementioned Regulations apply to entities that are listed on the Irish Stock Exchange (the "ISE").

The Company was also subject to corporate governance practices imposed by:

- (i) The Companies Act, which is available for inspection at the registered office of the Company; and may also be obtained at: <http://www.irishstatutebook.ie/home.html>;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company at, 1 George's Quay Plaza, George's Quay, Dublin 2, Ireland and at the Companies Registration Office in Ireland;
- (iii) The Central Bank UCITS Regulations which can be obtained from the Central Bank's website at :- <http://www.centralbank.ie/regulation/industrysectors/funds/Pages/default.aspx> and are available for inspection at the registered office of the Company; and
- (iv) The ISE through the ISE Code of Listing Requirements and Procedures which can be obtained from the ISE's website at: <http://www.ise.ie/index.asp?locID=7&docID=-1>.

A corporate governance code issued by the Irish Funds Industry Association (the "IFIA Code") may be adopted on a voluntary basis by Irish authorized collective investment schemes. The Directors adopted the IFIA Code during the period. The IFIA Code is available for inspection at the registered office of the Company and may also be obtained at www.irishfunds.ie. It should be noted that the IFIA Code reflects existing corporate governance practices imposed on Irish authorised collective investment schemes, as noted above. If the IFIA Code is adopted on a voluntary basis, it can be referred to in the disclosures made in the

DIRECTORS' REPORT (continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

CORPORATE GOVERNANCE CODE (continued)

Directors' Report in compliance with the provisions of the European Communities (Directive 2006/46/EC) Regulations (i.e. S.I. 450 of 2009 and S.I. 83 of 2010).

Delegation Structure

The Company has no employees and the Directors are all non-executive. Consistent with the regulatory framework applicable to investment fund companies such as the Company (and in contrast to normal operating companies with a full time executive management and employees), the Company operates a delegated model whereby it has delegated management (including investment management), administration and distribution functions to third parties without abrogating the Board's overall responsibility. The Board has in place mechanisms for monitoring the exercise of such delegated functions which are always subject to the supervision and direction of the Board. These delegations of functions and the appointment of regulated third party entities are detailed in the Company's Prospectus and Supplements. In summary, they are:

1. The Company has appointed Lantern Structured Asset Management Limited as its Platform Manager pursuant to the Management Agreement. Under the terms of the Management Agreement, the Platform Manager has responsibility for the management and administration of the Company's affairs and the distribution of the shares of the Funds. Lantern Structured Asset Management Limited is regulated by and under the supervision of the Central Bank of Ireland;
2. Lantern Structured Asset Management Limited, the Platform Manager, has delegated the investment management function in respect of the Company and of its Funds to the respective Investment Managers as detailed in the Prospectus and Supplements and listed in the directory to these financial statements. The respective Investment Managers make the investment decisions of the Funds which they manage and they are accountable to the Platform Manager and the Board of the Company for the investment performance of the relevant Funds. The Platform Manager and Investment Managers are required to ensure they have appropriate internal controls and risk management processes in place to ensure that risks pertaining to their management of the Funds are identified, monitored and managed at all times and appropriate reporting is made to the Board on a regular basis. The Investment Managers are regulated by and under the supervision of the regulator of their operating jurisdiction;
3. Lantern Structured Asset Management Limited, the Platform Manager, has delegated the administration function to MUFG Alternative Fund Services (Ireland) Limited (the "Administrator"). The Administrator performs the day to day administration of the Company and the Funds including the calculation of the net asset values and acting as registrar and transfer agent. The Administrator is regulated by and under the supervision of the Central Bank of Ireland;
4. Lantern Structured Asset Management Limited, the Platform Manager, has delegated the distribution of the Funds of the Company to UBS AG (the "Distributor"). The Distributor may distribute the Funds to its own clients and may also appoint sub-distributors. The Distributor is regulated by and subject to the supervision of the regulators of its operating jurisdictions.

The Company has also appointed JP Morgan Bank (Ireland) plc (the "Custodian") as custodian of its assets which entity has responsibility for the safekeeping of such assets in accordance with the UCITS Regulations and exercising independent oversight over how the Company is managed. The Custodian is regulated by and under the supervision of the Central Bank of Ireland.

The Board receives reports on a regular (and at least quarterly) basis from each of its delegate service providers and the Custodian which enable it to assess the performance of the delegate service providers and the Custodian (as the case may be).

Internal Control and Risk Management Systems in Relation to Financial Reporting

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage

DIRECTORS' REPORT (continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

CORPORATE GOVERNANCE CODE (continued)

Internal Control and Risk Management Systems in Relation to Financial Reporting (Continued)

rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable, and not absolute, assurance against material misstatement or loss. The Directors have procedures in place to ensure that all relevant accounting records are properly maintained and are readily available including production of annual and half yearly financial statements. The Administrator maintains the books and records of the Company. From time to time, the Directors examine and evaluate the Administrator's financial accounting and reporting routines. The annual financial statements of the Company are produced by the Administrator and reviewed by the Investment Manager and the Platform Manager. They are required to be approved by the Directors and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank and the ISE. During the period of these financial statements, the Directors were responsible for the review and approval of the annual financial statements as set out in the Statement of Directors' Responsibilities. The statutory financial statements are required to be audited by independent auditors who report annually to the Directors on their findings. The Directors monitor and evaluate the independent auditor's performance, qualifications and independence. As part of its review procedures, the Directors receive presentations from relevant parties including consideration of International Accounting Standards and their impact on the annual financial statements, and presentations and reports on the audit process. The directors evaluate and discuss significant accounting and reporting issues as the need arises.

Dealings with Shareholders

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene the first annual general meeting of the Company within eighteen months of incorporation and fifteen months of the date of the previous annual general meeting thereafter, provided that an annual general meeting is held once in each year within six months of the end of each accounting period of the Company. At least twenty-one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days' notice must be given in the case of any other general meeting, unless the auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice. Two shareholders present, either in person or by proxy, constitutes a quorum at a general meeting.

The share capital of the Company is divided into share classes and the Companies Act and the Articles of Association provide that the quorum for a general meeting convened to consider any alteration to the rights attached to any class of shares, is two or more shareholders present in person or by proxy, holding or representing by proxy at least one third of the issued shares of the relevant class. Every holder of participating shares or non-participating shares present, in person or by proxy, who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present, in person or by proxy, is entitled to one vote in respect of each share held by him, and every holder of non-participating shares is entitled to one vote in respect of all non-participating shares held by him. At any general meeting, a resolution put to the vote of the meeting is decided on a show of hands unless, before or upon the declaration of the result of the show of hands, a poll is demanded by the chairman of the general meeting, or by at least two members or shareholders present, in person or by proxy, having the right to vote at such meeting, or any holder or holders of participating shares present, in person or by proxy, representing at least one tenth of the shares in issue having the right to vote at such meeting.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. Alternatively, a resolution in writing signed by all of the shareholders and holders of non-participating shares for the time being entitled to attend and vote on such resolution at a general meeting of the Company, will be valid and effective for all purposes as if the resolution had been passed at a general meeting of the Company duly convened and held. An ordinary resolution of the Company (or of the shareholders of a particular Sub-Fund or class of shares) requires a simple majority of the votes cast by the shareholders voting, in person or by proxy, at the meeting at which the resolution is proposed. A special resolution of the Company (or of the shareholders of a particular Sub-Fund or class of shares) requires a majority of not less than 75% of

DIRECTORS' REPORT (continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

CORPORATE GOVERNANCE CODE (continued)

shareholders present, in person or by proxy, and voting in general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Board Composition and Activities

In accordance with the Companies Act and the Articles of Association, unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Directors are comprised of three non-executive Directors, two of whom are independent. Details of the current Directors are disclosed on page 2. The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not required by the Companies Act or by the Articles of Association of the Company to be exercised by the Company in general meeting. The Directors are responsible for the Company's overall direction and strategy and to this end it reserves the decision making power on issues such as the determination of medium and long-term goals, review of managerial performance, organisational structure and capital needs and commitments to achieve the Company's strategic goals. To achieve these responsibilities, the Directors meet on a quarterly basis to review the operations of the Company, address matters of strategic importance and to receive reports from the administrator, the Custodian, the Platform Manager and the Investment Manager. However, a Director may, and the Company Secretary on the requisition of a Director will, at any time summon a meeting of the Directors and ad hoc meetings in addition to the four meetings that are convened as required.

Questions arising at any meeting of the Directors are determined by the Chairman. In the case of an equality of votes, the Chairman of the meeting, at which the show of hands takes place or at which the poll is demanded, shall be entitled to a second or casting vote. The quorum necessary for the transaction of business at a meeting, of the Directors is two. Each of the Directors attended at least one of the meetings held during the financial period ended 31 December 2015. There were no sub-committees of the Directors in operation during the period or at the period end.

KEY PERFORMANCE INDICATORS

Key performance indicators monitored by the Directors include: the month to month movement in the Net Asset Value per share, the share capital movements and the summaries of any errors, or breaches in investment restrictions.

ACCOUNTING RECORDS

The measures taken by the Directors to ensure compliance with the requirements of Section 281 to 285 of the Companies Act, regarding adequate accounting records are the implementation of necessary policies and procedures for recording transactions, the employment of appropriately qualified accounting personnel and the provision of adequate resources, including appropriate computerised accounting systems, to the financial function. While the Directors are responsible for ensuring that adequate accounting records are kept by the Company pursuant to the Companies Act, the day to day management of these responsibilities has been delegated to the Administrator, who ensure that the requirements of Section 281 to 285 of the Companies Act are complied with.

The accounting records are maintained at 1 George's Quay Plaza, Georges Quay, Dublin 2, Ireland.

RISK MANAGEMENT

The Directors have appointed the Platform Manager whose responsibilities include the identification, monitoring and management of risk on behalf of the Company. The Company has adopted procedures to ensure that all applicable risks relating to the Company have been identified and are managed.

The financial risk management objectives and policies of the Company and the exposures of the Company to market risk, liquidity risk and credit risks are outlined in note 6 to these financial statements.

UBS (Irl) Alternative Solutions plc

DIRECTORS' REPORT (continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

RISK MANAGEMENT (Continued)

The Investment Manager operates a risk management process in relation to its management of the Company's financial instruments. The Platform Manager monitors the results of the risk process of the Investment Manager through periodic reporting. An overview of the results of this process is provided to the Directors to the full board at each board meeting.

SUBSEQUENT EVENTS

There were no subsequent events post year end or adjustment in the financial statements that require disclosure.

TRANSACTIONS WITH CONNECTED PARTIES

The Central Bank UCITS Regulations, paragraph 41(1) – 'Dealings by promoter, manager, trustee, investment adviser and group companies' states in paragraph one that any transaction carried out with a UCITS by a promoter, manager, trustee, investment adviser and/or associated or group companies of these ("connected parties") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the unit-holders of the UCITS.

The Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in paragraph one are applied to all transactions with connected parties; and the Board is satisfied that transactions with connected parties entered into during the period complied with the obligations set out in this paragraph.

AUDITORS

Ernst & Young, Chartered Accountants and Registered Auditor were appointed in January 2016 and have expressed their willingness to continue in office in accordance with Section 391 of the Companies Act,

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the EU and applicable law.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company and of its changes in net assets attributable to holders of redeemable participating shares for that year. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with IFRS as adopted by the EU; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that its financial statements comply with the Companies Act and the UCITS Regulations. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company. In this regard they have entrusted the assets of the Company to the Custodian for safe-keeping. They have general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act.

UBS (Irl) Alternative Solutions plc

CUSTODIAN'S REPORT

Report of the Custodian to the Shareholders

We have enquired into the conduct of UBS (Irl) Alternative Solutions plc ('the Company') for the period from 31 October 2014 (date of incorporation) to 31 December 2015 in our capacity as Custodian to the Company. This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulations 34 and 47 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulation 2011 (the "UCITS Regulations") and with effect from 1 November 2015, the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Custodian

Our duties and responsibilities are outlined in Regulation 34 and 47 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion the Company has been managed in that period, in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Custodian must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Custodian Opinion

The Custodian conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the provisions of its Memorandum and Articles of Association, the UCITS Regulations, the Central Bank UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) In accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association, the UCITS Regulations, the Central Bank UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the Memorandum and Articles of Association the UCITS Regulations and the Central Bank UCITS Regulations.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) ALTERNATIVE SOLUTIONS PLC

We have audited the financial statements of UBS (Irl) Alternative Solutions plc for the period ended 31 December 2015, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows, Schedule of Investments and the related notes 1 to 30. The financial reporting framework that has been applied in their preparation is Irish law, the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Statement of Directors' Responsibilities set out on page 12 the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view and otherwise comply with the Companies Act 2014. Our responsibility is to audit and express an opinion on the financial statements in accordance with Irish law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Company Information, Investment Managers' Report, Directors' Report and Custodian's Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) ALTERNATIVE SOLUTIONS PLC (Continued)

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the company as at 31 December 2015 and of its loss for the period then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015.

Matters on which we are required to report by the Companies Act 2014

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the directors' report is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of sections 305 to 312 of the Companies Act 2014 which require us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by law are not made.

INDEPENDENT AUDITOR'S REPORT TO THE DIRECTORS OF UBS (IRL) ALTERNATIVE SOLUTIONS PLC

The Directors
UBS (Irl) Alternative Solutions plc

We have audited the accompanying financial statements of UBS (Irl) Alternative Solutions plc (the "Fund"), which comprise the Statement of Financial Position, including the Schedule of Investments as of 31 December 2015, and the related Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and Statement of Cash Flows for the period then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with International Financial Reporting Standards (IFRSs) as adopted by the European Union; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

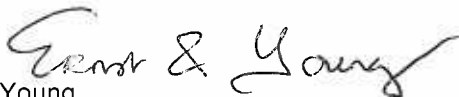

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Fund's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of UBS (Irl) Alternative Solutions plc at 31 December 2015, and the results of its operations, changes in its net assets, and its cash flows for the period then ended, in conformity with International Financial Reporting Standards (IFRSs) as adopted by the European Union).

NOTES TO THE FINANCIAL STATEMENTS

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

1. ORGANISATION

UBS (Irl) Alternative Solutions plc (the “Company”) was incorporated on 31 October 2014, as an open-ended umbrella investment company with segregated liability between the funds and variable capital, pursuant to the Companies Act 2014. The Company is authorised in Ireland by the Central Bank (the “Central Bank”) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended. The Company is structured as an umbrella fund in that different funds (the “Funds” or “Sub-Funds”) may be established with the prior approval of the Central Bank.

The Company currently has one operating Fund, the O’Connor Opportunistic UCITS Fund. The financial statements are prepared for the Company as a whole and there was one Sub-Fund in existence for the period, the O’Connor Opportunistic UCITS Fund. The O’Connor Opportunistic UCITS II Fund has been approved by the Central Bank but has not yet launched. The Company is organised in the form of an umbrella fund with segregated liability between Funds. The Company will keep separate books in respect of each Fund in which all transactions relating to the relevant Fund will be recorded. In particular, the proceeds from the allotment and issue of shares, the investments and liabilities and income and expenditure attributable thereto will generally be applied or charged to the relevant Fund. The assets held in each Fund will belong exclusively to the relevant Fund and will not be used to discharge directly or indirectly the liabilities of or claims against any other Fund.

The Articles of Association provide that the Company may offer separate classes of shares each representing interests in a Fund. Each Fund will have a distinct portfolio of investments, and more than one class of shares may be issued in respect of any Fund with the prior approval and clearance by the Central Bank.

On 3 December 2014, the Central Bank approved the Prospectus of the Company.

MUFG Alternative Fund Services (Ireland) Limited (the “Administrator”) has been appointed to act as administrator, registrar and transfer agent to the Company.

J.P. Morgan Bank (Ireland) plc (the “Custodian”) has been appointed to act as custodian of all of the assets of the Company under the terms of a custodian agreement.

Lantern Structured Asset Management Limited (the “Platform Manager”) has been appointed as the platform manager.

Investment objectives:

O’Connor Opportunistic UCITS Fund

The investment objective of the Fund is seeking to earn consistently positive risk adjusted appreciation in the value of its assets. The Fund seeks to achieve its investment objective primarily by employing a number of investment strategies, namely fundamental equity market neutral long/short, quantitative fundamental trading, fundamental long/short equity, merger arbitrage, and opportunistic strategies across all asset classes and all industries.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of compliance

The financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") as adopted by the European Union.

(b) Basis of preparation

The financial statements have been prepared in United States Dollar ("USD") for the Company and the Fund and rounded to the nearest USD. Refer to note 2(h)(i) for the functional currency.

(c) Basis of measurement

The financial statements are prepared on a historical cost basis, except for financial assets and liabilities, which are prepared at fair value through profit or loss. Fair value is the price that would be received in the purchase and sale of financial assets and liabilities or transferred to an equivalent party, other than in a liquidation sale. Financial assets at fair value include investments in bonds, forwards, futures, options and swaps.

The financial statements are prepared on a going concern basis as there are no material uncertainties to continue as a going concern.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with IFRS requires the Directors to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

(e) New Standards, amendments and interpretations

(i) Standards, amendments and interpretations that are not yet effective for the financial year beginning 1 January 2015 and are not early adopted

IFRS 9 Financial instruments - classification and measurement (effective 1 January 2018)

This standard addresses the classification and measurement of financial assets and financial liabilities. IFRS 9 was issued in November 2009 and October 2010. It replaces the parts of the International Accounting Standards ("IAS") IAS 39 – (*Financial Instruments: Recognition and Measurement*) that relate to the classification and measurements of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured as at fair value and those measured at amortized cost. The determination is made at initial recognition. The classification depends on the entity's

NOTES TO THE FINANCIAL STATEMENTS (Continued)
For the period from 31 October 2014 (date of incorporation) to 31 December 2015

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

business model for managing its financial instruments and the contractual cash flow characteristics of the instrument.

(f) Financial instruments

(i) Classification

The Company classifies its assets and liabilities into the categories below in accordance with IAS 39:

- Financial instruments held for trading include bonds, forwards, futures, options and swaps. All derivatives in a net receivable position (positive fair value) are reported as financial assets at fair value through profit or loss. All derivatives in a net liability position (negative fair value) are reported as financial liabilities at fair value through profit or loss.
- Financial assets that are classified as receivables include interest receivable, dividend receivable and other receivables.
- Financial liabilities that are not at fair value through profit or loss include amounts due to redemptions payable, expenses payable, other payables and financial liabilities arising on redeemable shares.

(ii) Recognition and initial measurement

Purchases and sales of financial instruments are accounted for at trade date, the date that the Company becomes a party to the contractual provisions of the instruments.

Financial instruments categorised at fair value through profit or loss are measured initially at fair value, with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income.

(iii) Subsequent measurement

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

(iv) Fair value measurement principles

The fair value of financial assets and liabilities held for trading is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs.

If a market for a financial instrument is not active then the fair value is established using a valuation technique. Valuation techniques include pricing models. The valuation techniques attempt to make maximum use of market inputs, relying as little as possible on estimates specific to each Fund, incorporating all factors that market participants would consider in setting a price and are consistent with accepted economic methodologies for pricing financial instruments. Inputs to valuation techniques reasonably represent market expectations.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) *Financial instruments (continued)*

Futures are valued using the last traded price supported by the relevant exchange. Equity swaps are valued based off the close price of the underlying equity. Listed options are valued using the last traded price supported by the relevant exchange. Sovereign Bonds are valued using the mid price supported by the pricing vendor. Forwards are valued on a valuation technique utilizing Bloomberg points based on New York 23:00 CET forward rates. Over the counter ("OTC") options are valued using their listed equivalents and where not possible, they are valued based on the counterparty value.

(v) *Derecognition*

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition in accordance with IAS 39.

The Company derecognises a financial liability when the obligation specified in the contract is discharged, cancelled or expires. The Company uses the first-in first-out ("FIFO") method to determine realised gains and losses on derecognition.

(g) *Cash and cash collateral*

Cash and cash collateral consist of deposits with credit institutions.

(h) *Foreign currency translation*

(i) *Functional and presentation currency*

Items included in the Company's financial statements in respect of each individual Fund are measured and presented in USD being the primary economic environment in which it operates (the "functional currency").

(ii) *Foreign currency transactions*

Assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the Bloomberg New York 23:00 CET rates at each period end. Transactions during the period, including purchases and sales of securities, income and expenses, are translated at the rate of exchange prevailing on the date of the transaction. Foreign currency transaction gains and losses on financial assets and liabilities are included in net loss from financial assets and liabilities at fair value through profit or loss.

(i) *Redeemable participating shares*

All redeemable shares issued by the Company provide the investors with the right to require redemption for cash at the value proportionate to the investor's share in the relevant Fund's net assets at the redemption date. In accordance with IAS 32 – (*Financial Instruments: Presentation*), such instruments are classified as financial liabilities as the redeemable participating shares meet the criteria as a financial liability per IAS 32 due to factors such as having different fee rates and different currency classes. In accordance with the Prospectus the Company is contractually obliged to redeem shares at the net asset value ("NAV") per share on the valuation date.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(j) Interest income and expense

Interest income and interest expense are recognised on an accruals basis using the original effective interest rate of the instrument. Interest is accrued on a daily basis.

(k) Dividend and distribution

The Company will not ordinarily but may at the Directors' discretion pay dividends to Shareholders. No dividends were declared or paid by the Company during the period.

(l) Expenses

All expenses, including management fees and interest expenses, are recognised in the income statement on an accruals basis.

(m) Transaction costs

Transaction costs are incremental costs which are separately identifiable and directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. The Company's portfolio transactions include the purchase and sale of investments and the increase or decrease in notional amount of derivative positions.

(n) Net asset value per share

The NAV per Share is calculated by the Administrator, dividing the NAV of each share class by the units in issue of each share class.

(o) Security Lending Policy

Investments lent under securities lending agreements shall be recognised in the Statement of Financial Position, as the Company would be exposed to all gains and losses arising from ownership of these securities and are measured in accordance with the accounting policy for investments. As at 31 December 2015, the Company had not engaged in securities lending.

(p) Derivative financial instruments

Derivatives are recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value. Fair values are obtained from quoted market prices in active markets and where a quoted market price is not available, fair values are based on the counterparty value. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

The best evidence of the fair value of a derivative at initial recognition is the transaction price (i.e. the fair value of the consideration given or received). Subsequent changes in the fair value of any derivative instrument are recognized immediately in the Statement of Comprehensive Income.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(q) *Offsetting*

Financial assets and liabilities are offset and the net amount presented in the Statement of Financial Position when and only when, the Company has legal right to offset the amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS, e.g. for gains and losses arising from a group of similar transactions, such as gains and losses from financial instruments at fair value through profit or loss.

3. TAXATION

The Company is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a 'Relevant Period'. A 'Relevant Period' being an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- (i) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- (ii) An exchange of shares representing one Fund for another Fund of the Company;
- (iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another Fund;
- (iv) Certain exchanges of shares between spouses and former spouses;
- (v) Shareholders who are neither Irish Resident nor Irish Ordinary Resident for tax purposes at the time of the chargeable event and who have provided the Company with a relevant declaration to that effect; and
- (vi) Certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event. There were no chargeable events during the period under review. Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

4. EXCHANGE RATES

The following exchange rates (against the USD) were used to convert the investments and other assets and liabilities denominated in currencies other than USD:

5. CASH AND CASH EQUIVALENTS AND CASH COLLATERAL

Cash balances are held by J.P Morgan Bank (Ireland) plc and The Bank of New York Mellon Corporation.

6. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS

Risk is inherent in the Company's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risks limits and other controls. The Fund is exposed to market risk (which includes currency risk, interest rate risk and other price risk), liquidity risk and credit risk arising from the financial instruments it holds. The Fund is also exposed to a variety of non-financial risks. Please refer to the Fund's Prospectus for details of such risk factors.

The Company may employ financial derivative techniques and instruments for the purposes of investment and/or efficient portfolio management subject to the limits laid down by the Central Bank and subject to the terms of the supplement for the relevant Fund. These financial derivative techniques and instruments may include, but are not limited to, contracts for differences, warrants, exchange traded futures and options, forward currency contracts and swap agreements. The Company uses a Risk Management Process ("RMP") to measure, monitor and manage risks attached to the financial derivative positions. The RMP was produced by the Platform Manager, was approved by the Directors of the Company provided to the Central Bank. The Company does not utilise financial derivatives which have not been included in the RMP until such time as a revised RMP has been submitted to and cleared by the Central Bank.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

6. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS (Continued)

Risk management structure

Under the terms of a deed relating to management services dated 3 December 2014, the Company has appointed the Platform Manager as its management company to provide it with various services, including discretionary investment management services for which it has appointed the Investment Manager to act as discretionary investment manager to the Company in relation to O'Connor Opportunistic UCITS Fund and O'Connor Opportunistic II UCITS Fund. Under the terms of an administration agreement dated 3 December 2014 between the Platform Manager and the Administrator, the Platform Manager has appointed the Administrator to provide various services in respect of the Company, including risk reporting services.

The Platform Manager, the Investment Manager and the Company have established a risk framework in respect of the Fund. This framework includes the identification of material risks, and the establishment of appropriate limits in respect of relevant risks. The Investment Manager has discretion to manage the Fund to achieve their stated investment objectives, subject to complying with relevant restrictions as set out in the investment management deed and the Prospectus and Supplements relating to the Fund.

Risk measurement and reporting system

The Investment Manager calculates various risk exposures on a daily basis, compares these exposures to limits and provides risk reports to the Platform Manager daily. The Administrator or its service providers also calculates various risk exposures on a daily basis, compares these exposures to limits and provides risk reports to the Platform Manager. The Platform Manager monitors these reports on a daily basis.

Risk mitigation

The Investment Manager has discretion to manage the Funds. Consequently, it is responsible for managing and controlling investment risks on an on-going basis and may use various techniques and instruments, including derivatives, to do so. These techniques may include the sale or purchase of instruments to reduce or otherwise amend the risk of the Fund. The Platform Manager, primarily through its risk management and product management functions, monitors the activities of the Investment Manager on a regular basis, using reports from the Investment Manager and the Administrator or its service providers. The Platform Manager and the Investment Manager report to the Board of Directors of the Company periodically, including reporting on risk matters.

(a) Market Risk

Market risk embodies the potential for both loss and gains and includes currency risk, interest rate risk and other price risk. The Fund's market risk is managed on a daily basis by the Investment Manager subject to the investment objective and investment policies set out in the Fund's Supplement to the Prospectus.

The market risks generated by the Fund are measured through the use of an absolute Value at Risk ("VaR") measure.

The portfolio of the Fund is analysed in the Schedule of Investments.

(i) *Currency risk*

The Fund may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Fund is exposed to the risk that the exchange rate of its functional currency relative to other foreign currencies may change in a manner that has an adverse effect

NOTES TO THE FINANCIAL STATEMENTS (Continued)

6. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS (Continued)

(i) *Currency risk (continued)*

on the value of the portion of the Fund's assets or liabilities denominated in currencies other than the functional currency.

The Fund's currency risk is monitored and managed by the Investment Manager in accordance with policies and procedures in place. In addition, as share classes of the Fund are denominated in currencies other than the functional currency, the Fund engages in currency hedging operations in relation to these classes with a view to mitigating, as far as reasonably practical, the effect of currency movements. The Investment Manager monitors and manages the share class currency hedging operations.

(iii) *Other price risk*

Other price risk is the risk that value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or factors affecting all instruments traded in the market.

As the Company's financial instruments are carried at fair value with fair value changes recognised in the statement of comprehensive income, all changes in market conditions will directly affect change in net assets attributable to holders of redeemable shares.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

6. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS (Continued)

(iii) Other price risk (continued)

The Investment Manager manages price risk in accordance with the investment objectives and policies set out in the Fund's Supplement to the Prospectus. This risk is managed by ensuring appropriate processes and procedures are in place.

(iv) VaR

Global exposure for the Fund is calculated using a VaR model. VaR is monitored in terms of absolute VaR defined as the VaR of the Fund as a percentage of NAV. The absolute VaR of the Fund should not be greater than 20%. VaR is measured over a holding period of 20 business days with a 99% confidence level and a historical observation period of not less than one year. The simulated returns are calculated using an equally-weighted historical simulation.

The market risks of the Fund's positions are monitored by the Platform Manager and the Investment Manager on a daily basis. VaR analysis represents the interdependencies between risk variables, unlike a traditional sensitivity analysis. VaR represents a statistical estimate of the potential losses from adverse changes in market factors for a specified time period and confidence level.

Limitation of VaR calculation

Whilst in the opinion of the Platform Manager VaR is a good general risk measure, it is acknowledged that it does have certain limitations, including:

- The measure is a point-in-time calculation, reflecting positions as recorded at that date, which do not necessarily reflect the risk positions held at any other time.
- If a 99% confidence interval is applied, losses are not expected to exceed the calculated VaR on 99% of occasions, but on the other 1%, losses are expected to be greater and may substantially exceed the calculated VaR.
- VaR is a statistical estimation and therefore it is possible that there could be, in any period, a greater number of days in which losses could exceed the calculated VaR.
- The period over which positions are expected to be held may differ to the actual period of holding, thereby impacting the calculated VaR.
- Inputs are restricted to conditions or events occurring in the past 2 years. Therefore any condition or event outside this time period will not have been included in the calculation.

VaR enables a comparison of risks across asset classes and serves as an indicator to a portfolio manager of the investment risk in a portfolio. If used in this way, and considering the limitations of VaR methods and the particular model chosen, it can act as a signal to the Investment Manager of an increase in the general level of risk in a portfolio and as a trigger for corrective action by the Investment Manager.

VaR analysis

The below table shows minimum, maximum and average VaR level as % of NAV and VaR limit utilization percentage over the reporting period 10 December 2014 to 31 December 2015.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

6. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS (Continued)

(iv) *VaR (continued)*

	20 Day 99% VaR	Limit Utilization (VaR as % of Limit)
Minimum	1.5%	7.3%
Maximum	4.6%	23.2%
Average	2.8%	14.0%
As at 31 st December 2015	2.9%	14.3%

Leverage

The leverage of the Fund's financial derivative instruments based on the sum of all absolute values of the derivative notional amounts held at 31 December 2015 was 296 as a percentage of NAV.

(b) **Liquidity Risk**

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's principal liability is its obligation to redeem shares at fair value on any dealing day at the request of a shareholder. The dealing frequency of the Fund is set out in the Supplement to the Prospectus for the Fund. The Investment Manager of the Fund manages the liquidity risk of redemption principally through portfolio management techniques. The Fund invests primarily in highly liquid financial instruments, which under normal market conditions are readily convertible into cash.

	Less than 1 month USD	1-6 months USD

(c) **Credit Risk**

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. The Company engages Citibank N.A. ("Citibank"), Credit Suisse Securities (Europe) Limited ("Credit Suisse Europe"), Credit Suisse International, J.P. Morgan Securities plc ("JP Morgan") and Morgan Stanley & Co. plc ("Morgan Stanley") for the Fund's traded derivatives. The Company utilises BNY Mellon for cash diversification

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

6. FINANCIAL INSTRUMENTS AND ASSOCIATED RISKS (Continued)

(c) Credit Risk (continued)

purposes. The Company utilises J.P. Morgan Collateral Management ("JPM ACCE") to provide day-to-day collateral management services. A CSA Margin Management model with tri-party pledge accounts is utilised which allows initial margin requirements to be fulfilled by the Fund posting securities or cash into an account with JPM ACCE as collateral custodian.

The Custodian holds securities, cash, and/or collateral for the Fund. Bankruptcy, insolvency or other credit default events of the Custodian may cause the Company's rights with respect to securities and other assets (including collateral) held by the Custodian to be delayed or limited. In the event of the insolvency or bankruptcy of the Custodian, the Company will be treated as a general creditor with respect to cash. The maximum exposure to this risk at 31 December 2015 is the carrying value of the relevant assets.

The Company monitors its risk by periodically reviewing the credit quality of the Custodian and its parent company J.P. Morgan Chase Bank N.A and the counterparties. In respect of the cash held with any institution, including the Custodian, the Company will be exposed to the credit risk of that institution.

Credit risk associated with trading and investing activities is managed through the Company's credit risk management process discussed above.

At 31 December 2015, the long term credit rating of BNY Mellon from Moody's Investor Service was A1 (Standard & Poor's was A; Fitch was AA-); J.P. Morgan Chase Bank N.A. from Moody's Investor Service was A3 (Standard & Poor's was A-; Fitch was A+); Citibank N.A. from Moody's Investor Service was Baa1, (Standard & Poor's was A-2; Fitch was A); Credit Suisse Securities (Europe) Limited from Standard & Poor's was A-1; Credit Suisse International from Moody's Investor Service was A2, (Standard & Poor's was A; Fitch was A); Morgan Stanley & Co. plc from Moody's Investor Service was A3, (Standard & Poor's was A-2; Fitch was A).

Other than outlined above, there was no significant concentration of credit risk with the counterparties at 31 December 2015.

The collateral received to reduce counterparty exposure is received through cash.

7. FAIR VALUE ESTIMATION

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and securities) are based on quoted market prices at the close of trading on the reporting date.

The fair value of financial assets and liabilities that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques used for non-standardised financial instruments such as over the counter ("OTC") options and forward currency contracts, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1 – Inputs that are quoted market prices (unadjusted) for identical instruments.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

7. FAIR VALUE ESTIMATION (continued)

- Level 3 – Inputs that are unobservable and significant to the fair value measurement. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

A financial instrument's categorization within the valuation hierarchy is based on the lowest level input that is significant to the fair value measurement. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement and considers factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Financial instruments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include sovereign bonds and exchange traded derivatives. The Company does not adjust the quoted price for these instruments.

The following table represents within the fair value hierarchy the Company's financial assets and financial liabilities as at 31 December 2015.

O'Connor Opportunistic UCITS Fund

	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
Assets

Total Financial liabilities at fair value through profit and loss	(688,910)	(7,282,026)	-	(7,970,936)

There were transfers between Levels 1, 2 and 3 during the period.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

8. SHARE CAPITAL

The initial authorised share capital of the Company is 500,000,000,000 redeemable shares of no par value and two redeemable non-participating shares of no par value issued at €1 each. Non-participating shares do not entitle the holders thereof to any dividend and on winding up entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the Company. The Directors have the power to allot shares in the capital of the Company on such terms and in such a manner as they may think fit. In the interests of equality, single swing pricing may be applied in the event of net subscriptions or redemptions exceeding a particular percentage, as determined by the Directors, of the Fund's NAV.

The Fund's objectives for managing capital are:

- To invest the capital in investments meeting the description, risk exposure and expected return indicated in its Prospectus;
- To achieve consistent returns while safeguarding capital by investing in a diversified portfolio, by participating in derivative and other capital markets and by using various investment strategies and hedging techniques;
- To maintain sufficient liquidity to meet the expenses of the Fund, and to meet redemption requests as they arise;
- To maintain sufficient size to make the operation of the Fund cost-efficient;

Participating shares for the Fund and share class may be redeemed on the dates set out in the relevant Supplemental Prospectus at the relevant NAV per share. The cut-off time for redemption requests is set out in the relevant Supplemental Prospectus.

Participating shares in issue during the period are as follows:

At 31 December 2015 – O'Connor Opportunistic UCITS Fund

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

9. MANAGEMENT FEES

The Platform Manager will be paid 0.35% per annum of the NAV of the class (the "Platform Fee") and will pay certain expenses out of this fee. The fees of the Administrator, Custodian and Distributor, in addition to all other fees and ongoing operational expenses of a Fund and any fees payable to the Directors, representatives, paying agents and other agents of the Fund, sub-custodians, and certain other expenses, such as the fees and expenses of the Fund's auditors and legal advisers, and any fees or expenses involved in registering and maintaining the registration of a Fund with any governmental agency or stock exchange in Ireland and in any other country, reporting and publishing expenses, including the costs of printing, preparing, advertising and distributing prospectuses, Key Investor Information Documents, explanatory memoranda, periodical reports or registration statements and the costs of reports to Shareholders of the Fund will be borne by the Platform Manager out of its fee.

The Investment Manager will be paid a fee (the "Management Fee"). The Management fee per class is as follows; Class P 2.00%, Class K-1 1.80%, Class Q 1.40%, Class I-A1 1.40%, Class I-A2 1.35% and Class I-A3 1.30%. Class I-A3 has not yet launched.

The Platform Fee and the Management Fee shall accrue as of each valuation day and shall be payable monthly in arrears.

The Platform Manager earned Platform Fees of 675,505 USD for the period ended 31 December 2015 of which 79,440 USD was unpaid as at the period end date

The Investment Manager earned Management Fees of 3,729,147 USD for the period ended 31 December 2015, of which 438,257 USD was unpaid as at the period end date.

10. PERFORMANCE FEES

The Investment Manager may be entitled to receive a performance fee payable out of the Fund's assets in respect of all classes.

The performance fee will be calculated and accrued as at each valuation day. The performance fee will be calculated in respect of each financial year (a "Calculation Period"). However, the first Calculation Period in respect of any class will be the period commencing on the business day immediately following the close of the initial offer period for that class and ending on the last business day in that same financial year. The first value used in determining the first performance fee shall be the initial offer price.

For each Calculation Period, the performance fee payable will be equal to 20% of the net outperformance of the NAV per share (prior to the deduction of the performance fee) over the high water mark, multiplied by the number of shares in issue as at the start of the calculation period, as adjusted for subscriptions and redemptions during the Calculation Period. The net outperformance is defined as the value of the NAV per share in excess of the high water mark.

The high water mark shall be the previous highest NAV per share (prior to the deduction of the performance fee) of the relevant class at the end of any previous Calculation Period for the relevant class on which the performance fee was paid. For the purposes of the first calculation of the performance fee, the starting point for the relevant NAV per share is the initial offer price. No performance fee will be paid until the NAV per share exceeds the high water mark or the initial offer price, as appropriate, and such fee is only payable on the net outperformance of the NAV per share over the high water mark as described above.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

10. PERFORMANCE FEES (Continued)

The performance fee will normally be payable to the Investment Manager in arrears within 20 business days of the end of each Calculation Period. However, in the case of shares redeemed during a Calculation Period, the accrued performance fee in respect of those shares will be payable within 20 business days of the date of redemption.

The Custodian shall verify the calculation of the performance fee.

The Directors may, with the consent of the Investment Manager, reduce the performance fee payable by any class of shares.

Performance fees are payable on realised and unrealised capital gains taking into account realised and unrealised losses at the end of the Calculation Period, net of the Management Fee and expenses. Consequently, performance fees may be paid on unrealised gains which may subsequently never be realised.

The Investment Manager earned performance fees of 4,148 USD for the period ended 31 December 2015, of which none remained unpaid as at the period end date.

11. ADMINISTRATION FEES

The administrator fees are borne by the Platform Manager. The Administrator earns a fee of 0.075% per annum of the net asset value of the Fund and is payable quarterly in arrears.

12. CUSTODIAN FEES

The custodian fees are borne by the Platform Manager. The Custodian earns a fee, which is based on the net asset value of the Fund and is subject to a minimum amount 120,000 EUR per annum, paid monthly in arrears

13. DISTRIBUTOR AND PROMOTER FEES

The Platform Manager has appointed UBS AG to act as Global Distributor of the Company pursuant to the Distribution Agreement.

No fees were paid to UBS AG by the Company in their capacity as Global Distributor in the period ended 31 December 2015. Any fees of the Global Distributor would be borne by the Investment Manager.

The Platform Manager has appointed UBS Asset Management (UK) Limited to act as Promoter and UK Facilities Agent of the Company.

No fees were paid to UBS Asset Management (UK) Limited by the Company in their capacity as Promoter in the period ended 31 December 2015.

14. DIRECTORS' FEES

For the period ended 31 December 2015, Directors' fees amounting to 24,252 EUR were paid by the Platform Manager and not recharged to the Company and relate solely to qualifying services.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

15. AUDIT FEES

The amount of remuneration paid by the Platform Manager to the auditors for the audit fee services was 20,500 EUR. No expenses for non-audit services were incurred during the period.

16. EFFICIENT PORTFOLIO MANAGEMENT

The Company may, subject to the requirements of the Central Bank, engage in techniques and instruments relating to transferable securities and money market instruments for efficient portfolio management purposes. Efficient portfolio management transactions relating to the assets of the Company may be entered into by the Investment Manager with one of the following aims: i) the reduction or stabilisation of risk; ii) the reduction of cost with no increase or a minimal increase in risk; iii) the generation of additional capital or income for the Company with a level of risk consistent with the risk profile of the Company and the diversification requirements in accordance with the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015. The Company uses the RMP to measure, monitor and manage risks attached to the financial derivative positions, detailed in Note 6.

The value and type of collateral held by the Fund in respect of efficient portfolio management techniques as at 31 December 2015 are detailed as follows:

Broker	Collateral Type	Value of Collateral Held USD	Value of Collateral Posted USD	Value of Derivatives / Securities Pledged USD
Citibank	Cash		155,450	
Credit Suisse Europe	Cash	716,568		
JP Morgan	Cash	649,610		
Credit Suisse Europe Pledge	Treasury Bills			37,035,828
JP Morgan Pledge	Treasury Bills			34,394,248
				<u>71,430,076</u>

Collateral Held - in the case of a positive mark to market

Collateral Posted - in the case of a negative mark to market

Collateral Pledged- liquid assets made available for collateral requirements

17. DERIVATIVES

Typically, derivative contracts serve as components of the Fund's investment strategy and are utilised primarily to structure and hedge investments, to enhance performance and reduce risk to the Fund (the Fund does not designate any derivative as a hedging instrument for hedge accounting purposes).

The Fund uses derivative financial instruments to economically hedge its risks associated primarily with foreign currency fluctuations. Derivative financial instruments may also be used for trading purposes where the Investment Manager believes this would be more effective than investing directly in the underlying financial instruments.

Derivatives often reflect, at their inception, only a mutual exchange of promises with little or no transfer of tangible consideration. However, these instruments frequently involve a high degree of leverage and may be volatile. A relatively small movement in the underlying of a derivative contract may have a significant impact on the profit or loss of the Fund. OTC derivatives may expose the Fund to the risks associated with the absence of an exchange market on which to close out an open position. The Investment Manager is instructed to closely monitor the Fund's exposure under derivative contracts as part of the overall management of the Fund's market risk.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

17. DERIVATIVES (continued)

At the reporting date, the Fund has positions in the following types of derivatives:

Forwards and futures

Forward and futures contracts are contractual agreements to buy or sell a specified financial instrument at a specific price and date in the future. Forwards are customised contracts transacted in the OTC market. Futures contracts are transacted in standardised amounts on regulated exchanges and are subject to daily cash margin requirements.

The main differences in the risk associated with forward and futures contracts are credit risk and liquidity risk. The Fund has credit exposure to the counterparties of forward contracts. The credit risk related to future contracts is considered minimal because the exchange ensures that these contracts are always honored. Forward contracts are settled gross and, therefore, considered to bear a higher liquidity risk than the future contracts which are settled on a net basis. Both types of contract result in market risk exposure. The realised gain/loss is included in net loss on financial assets and liabilities at fair value through profit or loss in the statement of comprehensive income.

Swaps

The Fund enters into contracts for difference as part of its investment strategy. Swap agreements (“swaps”) represent agreements that obligate two parties to exchange a series of cash flows at specified intervals based upon, or calculated by reference to, changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. Therefore amounts required for the future satisfaction of the swap may be greater or less than the amount recorded. The realised gain/loss depends upon the prices at which the underlying financial instruments of the swap is valued at the swap’s settlement date and is included in net loss on financial assets and liabilities at fair value through profit or loss in the statement of comprehensive income.

Options

Options are contractual agreements that convey the right, but not the obligation, for the purchaser either to buy or sell a specific amount of a financial instrument at a fixed price, either at a fixed future date or at any time within a specified period.

The Fund purchases and sells put and call options through regulated exchanges and OTC markets. Options purchased by the Fund provide the Fund with the opportunity to purchase (call options) or sell (put options) the underlying asset at an agreed-upon value either on or before the expiration of the option. The Fund is exposed to credit risk on purchased options only to the extent of their carrying amount, which is their fair value. Options written by the Fund provide the purchaser the opportunity to purchase from or sell to the Fund the underlying asset at an agreed-upon value either on or before the expiration of the option. Options are generally settled on a net basis.

The following table shows the fair values of derivative financial instruments, recorded as assets or liabilities, together with their notional amounts. The notional amount, recorded gross, is the amount of a derivative’s underlying asset, reference rate or index and is the basis upon which changes in the value of derivatives are measured. The notional amounts indicate the volume of transactions outstanding at the reporting dates and are indicative of neither the market risk nor the credit risk. The realised gain/loss is included in net loss on financial assets and liabilities at fair value through profit or loss in the statement of comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

17. DERIVATIVES (continued)

	Financial Assets USD	Notional Amount USD	Financial Liabilities USD	Notional Amount USD
Contracts for difference	7,896,048	419,900,257	(6,179,703)	286,268,391
Foreign currency forward contracts	422,044	159,323,524	(1,102,323)	9,977,616
Future contracts	105,007	9,422,557	(634,874)	81,777,503
Listed options	382,048	7,177,210	(54,036)	1,245,288
OTC options	20,156	2,134,354	-	-
	8,825,303	597,957,902	(7,970,936)	379,268,798

The fair value of the Fund's derivative instruments is disclosed within the Statement of Financial Position as financial assets and liabilities at fair value through profit or loss. The fair value by primary risk exposure as at 31 December 2015 is as follows:

	Financial Assets USD	Financial Liabilities USD
Foreign exchange rate risk	422,044	(1,102,323)
Price risk	8,403,259	(6,868,613)
	8,825,303	(7,970,936)

The realised gain/(loss) and the change in unrealised appreciation/(depreciation) for the period are disclosed within the Statement of Comprehensive Income under the heading "Net loss from financial assets and liabilities at fair value". The realised gain/(loss) and the change in unrealised appreciation/(depreciation) for the period to 31 December 2015 by primary risk exposure is as follows:

	Realised gain / (loss) USD	Change in unrealised appreciation / (depreciation) USD
Foreign exchange rate risk	(7,035,610)	(680,279)
Price risk	(550,320)	934,138
	(7,585,930)	253,859

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

18. COMMITMENTS

In the normal course of business the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnifications. Certain contracts are required to be accounted for pursuant to “Guarantor’s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others”, which addresses the disclosures to be made by a guarantor and whether a liability should be recognised by a guarantor at the inception of a guarantee. If required by that statement, the liability for a guarantee would be recorded at fair value at the inception of the guarantee. The Fund’s maximum exposure under other arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be low.

19. CONTINGENCIES

The Company is established as a segregated portfolio company. As a matter of Irish law, the assets of one Fund will not be available to satisfy the liabilities of another. However, the Company is a single entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. There is no guarantee that the courts of any jurisdiction outside Ireland will respect the limitations on liability associated with segregated portfolio companies nor is there any guarantee that the creditors of one Fund will not seek to enforce such Fund’s obligations against another Fund. As at 31 December 2015, there is only one Fund in operation and in the opinion of the Directors, there are no contingent liabilities.

21. ADDITIONAL INFORMATION

SEC Custody Rule

UBS O'Connor LLC, an affiliate of UBS O'Connor Limited, the Investment Manager, is a registered advisor with the United States Securities and Exchange Commission (the "SEC"). Rule 206(4)-2 of the US Investment Advisers Act of 1940, as amended (the "Custody Rule") imposes requirements on SEC registered investment advisors that are deemed to have custody of client funds or securities.

The Investment Manager has determined that they are required to provide the following information to all investors. The Investment Manager has requested that the Board include this information in the financial statements.

(i) *Taxation*

In accordance with the Accounting Standards Codification ("ASC") 740 (*Accounting for Uncertainty in Income Taxes Assessment*), it is the Company's policy to provide for tax liabilities that meet a more likely than not threshold of being upheld by relevant taxing authority. ASC 740 also prescribes a minimum recognition threshold a tax position must meet in connection with accounting for uncertainties in income tax positions taken or expected to be taken by an entity before being measured and recognised in the financial statements.

Directors have evaluated the application of Accounting for Uncertainty in Income Taxes to the Fund and have determined that the Fund has no such tax exposures at 31 December 2015.

(ii) *Redemptions*

The Fund's method of recognising redemptions in the period is consistent with ASC 480 (*Accounting for Certain Financial Instruments Assessment*) with characteristics of both liabilities and equity. Redemptions are recognised as liabilities when the amount requested in the redemption notice becomes fixed.

This generally may occur either at the time of receipt of the notice, or on the last day of the period, depending on the nature of the request. There were no redemptions payable recognised in accordance with ASC 480 as at 31 December 2015.

(iii) *Statement of financial position reconciliation*

There has been no adjustment per the NAV under IFRS and US GAAP

Net Asset Value per IFRS

2015
USD
266,004,547

(iv) *Financial highlights*

In accordance with ASC 946 (*Financial Services – Investment Companies*), the Fund has prepared the financial highlights shown in note 20.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

22. CHARGES OVER ASSETS

There are no liens or encumbrances on the Company's assets other than:

- (i) standard general liens that the Company in relation to the Fund has provided to the Custodian under the terms of the market standard agreement for the provision of certain custody services in respect of any fees and expenses or credit exposures incurred in the performance of services under such agreement and;
- (ii) standard security interests over assets of the Fund of the Company that the Company has provided to relevant counterparties pursuant to the standard market terms of the relevant trading agreements in place for the Fund.

23. RELATED PARTIES

Donard McClean, Alan Keating, and David Rochford, prior Directors of the Company, were also prior employees of the UBS Group until December 2015.

Gavin Byrnes, Director of the Company, is also an employee of the UBS Group. John Donohoe and Adrian Waters are also Directors of the Company.

Various entities within the UBS group may, as a custodian or nominee and on behalf of their clients, hold shares in the Fund. The Platform Manager paid the set up costs of the Company amounting to 182,881 EUR and has not charged these costs to any Fund.

Other parties considered to be related to the Company are the Investment Manager and Platform Manager (Note 1,9&10), Administrator (Note 1&11), Custodian (Note 12), and the Distributor and Promoter (Note 13).

24. CROSS INVESTMENTS

There were no cross investments by the Fund during the period.

25. SOFT COMMISSIONS

The Investment Manager may enter into soft commission arrangements in relation to the Fund whereby it directs business relating to a Fund to a broker or counterparty in return for market research or other benefits, provided that the relevant broker or counterparty has agreed to provide best execution and the benefits provided under the soft commission arrangements assist in the provision of investment services to the Fund. No transactions were recorded for the period.

26. DIRECTED BROKERAGE SERVICE

The Investment Manager may enter into directed brokerage services in relation to the Fund whereby it directs business relating to a Fund to a broker or counterparty in return for market research or other benefits, provided that the relevant broker or counterparty has agreed to provide best execution and the benefits provided under the directed brokerage arrangements assist in the provision of investment services to the Fund. No transactions were recorded for the period.

27. OTHER INCOME

Other income includes reimbursement of losses incurred through trading errors by the Investment Manager.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the period from 31 October 2014 (date of incorporation) to 31 December 2015

28. MATERIAL CHANGES TO THE COMPANY DURING THE PERIOD

Supplements for the O'Connor Opportunistic UCITS Fund and the O'Connor Opportunistic UCITS II Fund were updated and approved by the Central Bank as at 27 February 2015 and 11 June 2015 respectively.

During the reporting period, MUFG Investor Services, the global asset servicing arm of Mitsubishi UFJ Financial Group, reached an agreement with UBS Asset Management to acquire its Alternative Fund Services business, which includes UBS Fund Services (Ireland) Limited, which administrated the Company. The transaction was finalised on the 11th December 2015. Accordingly, the Company is now administrated under the new name of MUFG Alternative Fund Services (Ireland) Limited.

29. EVENTS AFTER THE REPORTING PERIOD

Subscriptions from the period 31 December 2015 to the time of approval of the financial statements amounted to 43,916,892 USD. Redemptions from the period 31 December 2015 to the time of approval of the financial statements amounted to 66,920,710 USD.

Other than the above, there have been no significant events affecting the Company since the year end.

30. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the Directors on 28 April 2016.
