(the "**Fund**")

I. Notice is hereby given to the Unitholders of **CS Investment Funds 13 – Credit Suisse (Lux) Broad EUR Bond Fund** (for the purpose of this point the "**Subfund**") that the Management Company has decided to effect a series of corporate actions leading ultimately to the liquidation of the Subfund, which can be summarised as follows:

In a first step, the Subfund will be converted into a feeder fund and will therefore invest via a subscription in kind at least 85% of its total assets in **Credit Suisse (Lux) Euro Corporate Bond Fund**, a subfund of **CS Investment Funds 1** (the "**Target Fund**").

In a second step, immediately upon the completion of the first step, the Subfund will be liquidated in kind. As a consequence of such liquidation, the Unitholders of the Subfund will receive shares of the Target Fund and thus become shareholders of the Target Fund.

#### 1. Amendment to the Investment Objective and Investment Policy of the Subfund

The Management Company has decided to amend the Investment Objective and Investment Policy of the Subfund. Pursuant to these changes, the Subfund will pursue a master-feeder strategy by investing at least 85% of its total assets in the Target Fund.

The Target Fund is a subfund of **CS Investment Funds 1**, an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (*société d'investissement à capital variable*, SICAV), subject to Part I of the Law of December 17, 2010.

The Fund and CS Investment Funds 1 are both managed by Credit Suisse Fund Management S.A. with Credit Suisse (Luxembourg) S.A. as their depository and Credit Suisse Fund Services (Luxembourg) S.A. as their central administration.

The amended Investment Objective and Principles of the Subfund and the Investment Objective and Principles of the Target Fund read as follows:

#### Investment Objective of the Subfund and of the Target Fund

The objective of the Subfund and of the Target Fund is primarily to achieve income and capital appreciation from bonds and other debt securities denominated in Euro issued by corporate issuers while preserving the value of the assets.

#### Investment Principles of the Subfund

In order to realize its investment objective, the Subfund pursues a master-feeder strategy. At least 85% of the Subfund's total assets shall be invested in Credit Suisse (Lux) Euro Corporate Bond Fund, a subfund of CS Investment Funds 1 (the "Target Fund").

CS Investment Funds 1 is an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (*société d'investissement à capital variable*, SICAV), subject to Part I of the Law of December 17, 2010. It has appointed Credit Suisse Fund Management S.A. as its management company.

The Subfund may hold up to 15% of its total net assets in liquid assets in the form of sight and time deposits with first-class financial institutions and money-market instruments which do not qualify as transferable securities and have a term to maturity not exceeding 12 months, in any convertible currency.

#### Investment Principles of the Target Fund

At least two-thirds of the Target Fund's net assets shall be invested in bonds (including zero-coupon bonds, subordinated bonds, covered bonds, perpetual bonds, and securities issued on a discount basis) and other fixed-interest and floating-rate securities (including fixed rate bonds, floating rate notes) of corporate issuers which are domiciled in or carry out the bulk of their business activities in Europe.

Up to one-third of the net assets, the Target Fund may invest in bonds of corporate issuers as well as in government and semi-government bonds worldwide (including emerging markets). The Target Fund's assets will on average have a rating of at least BBB- by Standard & Poor's or Baa3 by Moody's and have an individual rating of at least "B" by Standard & Poor's or B2 by Moody's or debt instruments which exhibit similar credit quality in the view of the Management Company at the time the investment is made.

In addition to direct investments, the Target Fund may conduct futures and options as well as swap transactions (interest-rate swaps, credit default swaps and total return swaps) for the purpose of hedging and the efficient management of the portfolio.

The principal amount of the Target Fund's assets that can be subject to total return swaps may represent up to a maximum of 10% of the net asset value of the Target Fund calculated by way of the sum of notionals of the total return swaps. It is generally expected that the amount of such total return swap will remain within the range of 0% to 10% of the net asset value of the Target Fund calculated by way of the sum of notionals of the total return swaps. In certain circumstances this proportion may be higher.

The sum of notionals takes into account the absolute value of the notional exposure of the total return swaps used by the Target Fund. The expected amount of such total return swaps is an indicator of the intensity of the use of total return swaps within the Target Fund. However, it is not necessarily an indicator of the investment risks in relation to those instruments because it does not take into account any netting or hedging effects.

A maximum of 5% of the Target Fund's net assets may be invested in contingent capital instruments.

The Target Fund may also invest up to 5% of its net assets in asset-backed securities (ABS) and mortgage-backed securities (MBS).

Furthermore, the Target Fund may actively manage its currency exposure through the use of forward exchange transactions and swap transactions.
