Former wording	New wording
<p>[...] <b>Liquid Assets</b> The Subfunds may hold ancillary liquid assets in the form of sight and time deposits with first-class financial institutions and money market instruments which do not qualify as transferable securities and have a term to maturity not exceeding 12 months, in any convertible currency. Moreover, each Subfund may, on an ancillary basis, hold units/shares in undertakings for collective investment in transferable securities which are subject to Directive 2009/65/EC and which in turn invest in short-term time deposits and money market instruments and whose returns are comparable with those for direct investments in time deposits and money market instruments.</p>	<p>[...] <b>Ancillary Liquid Assets</b> The Subfunds may hold ancillary liquid assets within a limit of 20% of their total net assets. Subject to any additional restrictions as specified in Chapter 23 "Subfunds", the above mentioned 20% limit may only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors, for instance in highly serious circumstances. Liquid assets held to cover exposure to financial derivative instruments do not fall under this restriction. Bank deposits, money market instruments or money market funds that meet the criteria of Article 41(1) of the Law of December 17, 2010 are not considered to be included in the ancillary liquid assets under Article 41(2) b) of the Law of December 17, 2010. Ancillary liquid assets are limited to bank deposits at sight, such as cash held in current accounts with a bank accessible at any time, in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets provided under Article 41(1) of the Law of December 17, 2010 or for a period of time strictly necessary in case of unfavourable market conditions.</p>
