*March 31, 2024 (Unaudited)***LETTER TO SHAREHOLDERS**

April 30, 2024

Dear Shareholder:

The Puerto Rico Residents Bond Fund I (the "Fund") is pleased to present its Letter to Shareholders for the six-month period ending on March 31, 2024.

During the reporting period, U.S. economic activity expanded at a solid pace while job gains remained strong. From September 30, 2023, to March 31, 2024, the unemployment rate remained low and unchanged at 3.8%. Inflation has receded during the period as the Federal Open Market Committee (the "FOMC") kept rates at a high level, however, it remained elevated above the Fed's 2% targeted level. Consumer price inflation, as measured by the 12-month percentage change in the price index for personal consumption expenditures, decreased from 3.4% as of September 30, 2023, to 2.7% as of March 31, 2024.

In support of returning inflation to 2% over time, the FOMC decided to hold the target range for the federal funds rate at 5.25%-5.50% from September 2023 to March 2024. At its March 2024 meeting, the FOMC's economic projections reflected a decrease in the median federal funds rate to 4.6% by the end of 2024. The projected decrease in the median federal funds rate is mainly driven by lower expectations in personal consumption expenditures ("PCE"), inflation, and real gross domestic product (GDP) combined with a slight increase in the unemployment rate for the year. Nonetheless, in the FOMC's statement released after its March meeting, the FOMC asserted that it does not expect it will be appropriate to reduce the target range until it has gained greater confidence that inflation is moving sustainably toward 2%. The FOMC will carefully assess incoming data, the evolving economic outlook, and the balance of risks before considering any adjustments to the target range for the federal funds rate. The FOMC expects to maintain the current target range until it has greater confidence that inflation is moving sustainably toward 2%. In addition, it will continue reducing its holdings of U.S. Treasury securities, agency debt, and agency mortgage-backed securities.

As of March 31, 2024, Fed funds futures prices anticipated that the effective federal funds rate would decrease by approximately 67 basis points by the end of 2024. The U.S. Treasury yield curve remained inverted as the 2-year U.S. Treasury note yield decreased by 0.43%, from 5.05% as of September 30, 2023, to 4.62% as of March 31, 2024, while the 10-year U.S. Treasury note yield decreased by 0.37%, from 4.57% to 4.20% for the same period.

---

March 31, 2024 (Unaudited)

Higher-than-average inflation levels, a possible shift from the FOMC's tightening cycle, and the potential for shocks from geopolitical conflicts abroad has led to a highly uncertain economic outlook. Current market conditions present a challenging environment for the management of the Fund. Notwithstanding, UBS Asset Managers of Puerto Rico and Popular Asset Management LLC (the Fund's co-investment advisers) remain committed to seeking investment opportunities within the Fund's allowed parameters and providing professional asset management services to the Fund for the benefit of its shareholders.

Sincerely,

/s/ Enrique Vila del Corral  
Enrique Vila del Corral, CPA  
Chairman of the Board

*This letter is intended to assist shareholders in understanding how the Fund performed during the six-month period ended March 31, 2024. The views and opinions in the letter were current as of April 30, 2024. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors, and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.*

March 31, 2024 (Unaudited)

**MANAGEMENT DISCUSSION OF FUND PERFORMANCE****REGISTRATION UNDER THE INVESTMENT COMPANY ACT OF 1940**

The Fund is a non-diversified closed-end management investment company organized under the laws of the Commonwealth of Puerto Rico ("Puerto Rico") and is registered as an investment company under the Investment Company Act of 1940, as amended (the "1940 Act"), as of May 21, 2021. Prior thereto, the Fund was registered under the Puerto Rico Investment Companies Act of 1954, as amended.

On May 24, 2018, the Economic Growth, Regulatory Relief, and Consumer Protection Act (Pub. L. No. 115-174) was signed into law and amended the 1940 Act to repeal the exemption from its registration of investment companies created under the laws of Puerto Rico, the U.S. Virgin Islands, or any other U.S. possession under Section 6(a)(1) thereof. The repeal of the exemption took effect on May 24, 2021. Upon the Fund's registration under the 1940 Act, it must now register its future offerings of securities under the Securities Act of 1933, as amended (the "1933 Act"), absent an available exception. The Fund has suspended its current offerings of securities pending its registration under the 1933 Act.

**FUND PERFORMANCE**

The following table portrays performance for the period from October 1, 2023, to March 31, 2024:

	<b>Six-Month Period</b>
Based on market price	14.46%
Based on NAV	10.53%

*Past performance is not predictive of future results. Performance calculations do not reflect any deduction of taxes that a shareholder may have to pay on Fund distributions or any commissions payable on the sale of Fund shares.*

The following table provides summary data on the Fund's dividends, net asset value ("NAV"), and market prices as of March 31, 2024:

Dividend yield based on market at period end	8.15%
Dividend yield based on NAV	3.36%
NAV as of March 31, 2024	\$3.27
Market Price as of March 31, 2024	\$1.35
Premium (discount) to NAV	(58.7%)

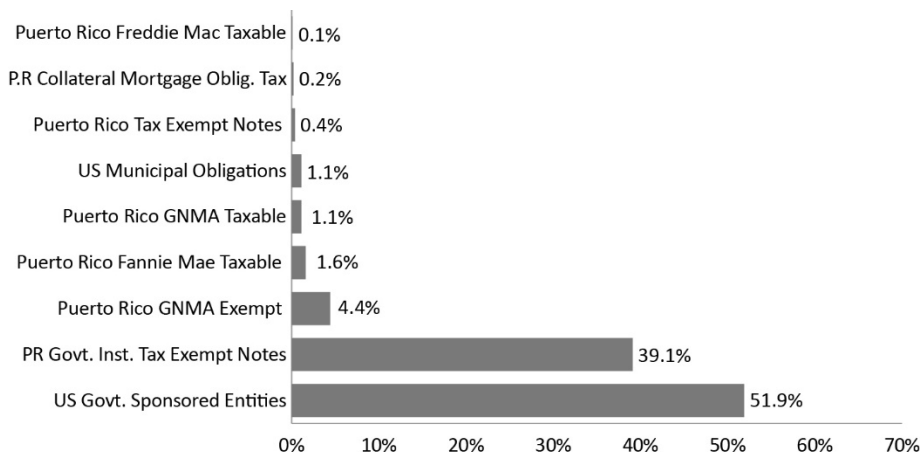

The Fund seeks to pay monthly dividends out of its net investment income. To allow the Fund to maintain a more stable monthly dividend, the Fund may pay dividends that are more or less than the amount of net income earned during the year. All monthly dividends paid by the Fund during the reporting period were paid from net investment income from the current reporting period. The basis of the distributions is the Fund's net investment income for tax purposes. See Note 10 to the Financial Statements for a reconciliation of book and taxable income.

March 31, 2024 (Unaudited)

Figure 1 below reflects the breakdown of the Fund's investment portfolio as of March 31, 2024. For details of the security categories below, please refer to the enclosed Schedule of Investments.

### Figure 1. Asset allocation as of March 31, 2024

Asset Allocation, as a % of Total Portfolio

As of March 31, 2024, the largest Puerto Rico municipal bond holding in the portfolio remained the restructured Puerto Rico Sales Tax Financing Corporation ("COFINA") bonds received in an exchange in February 2019 pursuant to a plan of adjustment approved by the U.S. District Court for the District of Puerto Rico under Title III of the Puerto Rico Oversight, Management, and Economic Stability Act ("PROMESA"). The restructured COFINA bond positions represent 38.6% of the Fund's total investment portfolio and are secured by 53.65% of the pledged sales and use tax base amount through 2058 (which amounts to \$420 million for fiscal year 2019 and an increase by 4% each year thereafter, capping out at \$992.5 million in fiscal year 2041). In general, COFINA bond prices increased, as represented by the P.R. COFINA 5% 07/01/58 bond, which increased by \$9.84, from \$90.46 as of September 30, 2023, to \$100.30 as of March 31, 2024, as per IDC valuation. For fiscal year 2023-2024 the COFINA required transfers related to the debt service are \$511.2 million. Collections for fiscal year 2023-2024 started on July 1, 2023. As of October 2023, 100% of the COFINA required transfers related to the debt service reserve for fiscal year end June 30, 2024, had already been collected and transferred to the COFINA trustee.

U.S. holdings in the Fund's investment portfolio, representing 53.0% of the total investment portfolio, consist primarily of U.S. government agency and U.S. municipal bonds. In general, during the six-month reporting period U.S. holdings prices increased driven by lower interest rates.

The Fund owns a position in mortgage-backed securities ("MBS") representing 7.4% of the total investment portfolio, which consists of pools of Puerto Rico mortgages issued and guaranteed by U. S. agencies. The balance of the pools decreased during the period from the repayment of the underlying mortgages.

March 31, 2024 (Unaudited)

The Fund's NAV increased \$0.25 during the reporting period, from \$3.02 at the beginning of the period to \$3.27 at the end. The Fund's indicated market price per share reflected a discount to NAV of 58.7% as of March 31, 2024, decreasing from the 60.3% discount to NAV as of September 30, 2023.

### FUND HOLDINGS SUMMARY

The following tables show the Fund's portfolio allocation using various metrics as of the end of the six-month reporting period. It should not be construed as a measure of performance for the Fund itself. The portfolio is actively managed, and holdings are subject to change.

#### Portfolio Composition (% of Total Portfolio)

U.S. Agencies	51.9%
Sales and Use Tax (PR)	38.6%
Mortgage-Backed Securities	7.5%
U.S. Municipal Bonds	1.1%
Other PR Municipal Bonds	0.5%
P.R. Tax Exempt Notes	0.4%
<b>Total</b>	<b>100.0%</b>

#### Geographic Allocation (% of Total Portfolio)

Puerto Rico	47.0%
U.S.	53.0%
<b>Total</b>	<b>100.0%</b>

The following table shows the Fund's security portfolio ratings as of March 31, 2024. The ratings used are the highest rating given by one of the three nationally recognized rating agencies, Fitch Ratings (Fitch), Moody's Investors Service (Moody's), and S&P Global Ratings (S&P). Ratings are subject to change.

(% of Total Portfolio)

<b>Rating</b>	<b>Percent</b>
AAA	59.8%
AA	1.1%
A	0.0%
BBB	0.0%
Below BBB	0.0%
Not Rated	39.1%
<b>Total</b>	<b>100%</b>

The "Not-Rated" category is mostly comprised of the restructured COFINA bonds issued in 2019, a Puerto Rico Industrial Development Company (PRIDCO) bond, and a Contingent Value Instrument (CVI) from the restructuring of the Puerto Rico Highway and Transportation Authority. The restructured COFINA bonds were issued without a rating from any of the rating agencies pending a determination of the Board of Directors of COFINA on the appropriate timing to apply for such rating. As of March 31, 2024, the COFINA Board had not applied for a rating.

*March 31, 2024 (Unaudited)***FUND LEVERAGE****THE BENEFITS AND RISKS OF LEVERAGE**

As its fundamental policy the Fund may only issue senior securities, as defined in the 1940 Act ("Senior Securities"), representing indebtedness to the extent that immediately after their issuance, the value of its total assets, less all the Fund's liabilities and indebtedness that are not represented by Senior Securities being issued or already outstanding, is equal to or greater than the total of 300% of the aggregate par value of all outstanding indebtedness issued by the Fund. The Fund may only issue Senior Securities representing preferred stock to the extent that immediately after any such issuance, the value of its total assets, less all the Fund's liabilities and indebtedness that are not represented by Senior Securities being issued or already outstanding, is equal to or greater than the total of 200% of the aggregate par value of all outstanding preferred stock (not including any accumulated dividends or other distributions attributable to such preferred stock) issued by the Fund. These asset coverage requirements must also be met any time the Fund pays a dividend or makes any other distribution on its issued and outstanding shares of common stock or any shares of its preferred stock (other than a dividend or other distribution payable in additional shares of common stock) as well as any time the Fund repurchases any shares of common stock, in each case after giving effect to such repurchase of shares of common stock or issuance of preferred stock, debt securities, or other forms of leverage in order to maintain asset coverage at the required 200% level. To the extent necessary, the Fund may purchase or redeem preferred stock, debt securities, or other forms of leverage in order to maintain asset coverage at the required 200% level. In such instances, the Fund will redeem Senior Securities, as needed, to maintain such asset coverage.

Subject to the above percentage limitations, the Fund may also engage in certain additional borrowings from banks or other financial institutions through reverse repurchase agreements. In addition, the Fund may also borrow for temporary or emergency purposes in an amount of up to an additional 5% of its total assets.

Leverage can produce additional income when the income derived from investments financed with borrowed funds exceeds the cost of such borrowed funds. In such an event, the Fund's net income will be greater than it would be without leverage. On the other hand, if the income derived from securities purchased with borrowed funds is not sufficient to cover the cost of such funds, the Fund's net income will be less than it would be without leverage.

To obtain leverage the Fund enters into collateralized reverse repurchase agreements with major institutions in the U.S. and/or issues Tax Exempt Secured Obligations ("TSOs") in the local market. Both are accounted for as collateralized borrowings in the financial statements. Typically, the Fund borrows for approximately 30-90 days at a variable borrowing rate based on short-term rates. The TSO program was suspended in May 2021 pending registration under the 1933 Act.

As of March 31, 2024, the Fund had the following leverage outstanding:

Reverse Repurchase Agreements	\$11,284,329
Leverage Ratio <sup>1</sup>	18.8%

---

*March 31, 2024 (Unaudited)*

Please refer to the Schedule of Investments for details of the securities pledged as collateral and to Note 6 to the Financial Statements for further details on outstanding leverage during the year.

<sup>1</sup> **Asset Leverage ratio:** *The sum of (i) the aggregate principal amount of outstanding TSOs plus (ii) the aggregate principal amount of other borrowings by the Fund, including borrowings resulting from the issuance of any other series and other forms of leverage, and from the compliance date of Rule 18f-4 going forward, including borrowings in the form of reverse repurchase agreements, divided by the fair market value of the assets of the Fund on any given day.*

- (j) Operating expenses represent total expenses excluding interest and leverage related expenses.*

*See Notes to Financial Statements.*

March 31, 2024 (Unaudited)

**NOTE 1. REPORTING ENTITY AND SIGNIFICANT ACCOUNTING POLICIES**

---

Puerto Rico Residents Bond Fund I (the "Fund") is a non-diversified closed-end management investment company. The Fund is an investment trust organized under the laws of the Commonwealth of Puerto Rico (the "Commonwealth" or "Puerto Rico") and is registered as an investment company under the 1940 Act. The Fund was created pursuant to an agreement and deed of trust entered into by and between Popular Securities, LLC and UBS Financial Services Inc. as settlers, and their affiliates, Banco Popular de Puerto Rico and UBS Trust Company of Puerto Rico, as trustees (the "Trustees").

The Fund's investment objective is to achieve a high level of tax-advantaged current income consistent with the preservation of capital. There is no assurance that the Fund will achieve its investment objective.

On May 24, 2018, the Economic Growth, Regulatory Relief, and Consumer Protection Act (Pub. L. No. 115-174) was signed into law and amended the 1940 Act to repeal the exemption from its registration of investment companies created under the laws of Puerto Rico, the U.S. Virgin Islands, or any other U.S. possession under Section 6(a)(1) thereof. The repeal of the exemption took effect on May 24, 2021. Subsequent to its registration under the 1940 Act, the Fund must register its future offerings of securities under the 1933 Act, absent an available exception. The Fund has suspended its current offering of securities pending its registration under the 1933 Act.

The Fund is an investment company that applies the accounting and reporting guidance in the Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, Financial Services – Investment Companies (ASC 946). The financial statements are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"), which requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements:

- (a) *Cash and Cash Equivalents* – Cash and cash equivalents consist of demand deposits and funds invested in short-term investments with original maturities of 90 days or less. Cash and cash equivalents are valued at amortized cost, which approximates fair value. At March 31, 2024, cash and cash equivalents consisted of a time deposit open account amounting to \$279,041 with JPMorgan Chase Bank, N.A.
- (b) *Valuation of Investments* – Investments included in the Fund's financial statements have been stated at fair value as determined by the Fund, with the assistance of Popular Asset Management LLC, a subsidiary of Popular, Inc., and UBS Asset Managers of Puerto Rico, a division of UBS Trust Company of Puerto Rico (each an "Investment Adviser" and collectively the "Investment Advisers") (refer to Note 3 for details on the investment advisory agreements), on the basis of valuations provided by dealers or by pricing services, which are approved by Fund management and the Fund's Board of Directors (the "Board") in accordance with the

March 31, 2024 (Unaudited)

valuation methods set forth in the governing documents and related policies and procedures. See Note 2 for further discussions regarding fair value disclosures.

- (c) *Taxation* – The Fund has elected to be treated as a registered investment company under the Puerto Rico Internal Revenue Code of 2011, as amended, and the regulations and administrative pronouncements promulgated thereunder. As a registered investment company under the 1940 Act, the Fund will not be subject to Puerto Rico income tax for any taxable year if it distributes at least 90% of its taxable net investment income for such year, as determined for these purposes pursuant to the provisions of section 1112.01(a)(2) of the Puerto Rico Internal Revenue Code of 2011, as amended. Accordingly, as the Fund intends to meet this distribution requirement, the income earned by the Fund is not subject to Puerto Rico income tax at the Fund level. The Fund has never been subject to taxation.

In addition, the fixed income and equity investments of the Fund are exempt from Puerto Rico personal property taxes. The Fund does not intend to qualify as a Regulated Investment Company (“RIC”) under Subchapter M of the U.S. Internal Revenue Code of 1986, as amended, and consequently an investor that is not (i) an individual who has his or her principal residence in Puerto Rico, or (ii) a person, other than an individual, that has its principal office and principal place of business in Puerto Rico will not receive the tax benefits of an investment in typical U.S. mutual funds (such as RIC tax treatment, i.e., availability of pass-through tax status for non-Puerto Rico residents) and may have adverse tax consequences for U.S. federal income tax purposes. The Fund is exempt from United States income taxes, except for dividends received from United States sources, which are subject to a 10% United States withholding tax if certain requirements are met. In the opinion of the Fund’s legal counsel, the Fund is not required to file a U.S. federal income tax return.

Accounting Standards Codification Topic 740, Income Taxes (ASC 740) requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund’s tax return to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Tax positions not deemed to meet the “more-likely-than-not” threshold are recorded as a tax benefit or expense in the current year. Management has analyzed the Fund’s tax positions taken on its Puerto Rico income tax returns for all open tax years (the current and prior three tax years) and has concluded that no liability should be recorded as the Fund has not taken any uncertain tax positions on returns filed for open tax years.

- (d) *Statement of Cash Flows* – The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of common shareholders. These activities are reported in the Statement of Changes in Net Assets. Additional information on cash receipts and payments is presented in the Statement of Cash Flows. Accounting practices that do not affect the reporting of activities on a cash basis include carrying investments at fair value and amortizing premiums or discounts on debt obligations.
- (e) *Dividends and Distributions to Shareholders* – Dividends from substantially all of the Fund’s net investment income are declared and paid monthly. The Fund may at times pay out more or less than the entire amount of net investment income earned in any particular period and may at times pay out such accumulated undistributed income earned in other periods in order to permit the Fund a more stable level of distribution. The Fund records dividends to its

March 31, 2024 (Unaudited)

shareholders on the ex-dividend date. The Fund does not expect to make distributions of net realized capital gains, although the Fund's Board reserves the right to do so in its sole discretion.

- (f) *Reverse Repurchase Agreements* – Under these agreements, the Fund sells portfolio securities, receives cash in exchange and agrees to repurchase the securities at a mutually agreed upon date and price. Ordinarily, those counterparties with which the Fund enters into these agreements require delivery of collateral, nevertheless, the Fund retains ownership of the collateral through the agreement that requires the repurchase and return of such collateral. These transactions are treated as financings and recorded as liabilities. Therefore, no gain or loss is recognized on the transaction and the securities pledged as collateral remain recorded as assets of the Fund. The Fund enters into reverse repurchase agreements that do not have third-party custodians, with the collateral delivered directly to the counterparty. Pursuant to the terms of the standard SIFMA Master Repurchase Agreement, the counterparty is free to repledge or rehypothecate the collateral, provided it is delivered to the Fund upon maturity of the reverse repurchase agreement. This arrangement allows the Fund to receive better interest rates and pricing on the reverse repurchase agreements. While the Fund cannot monitor the rehypothecation of collateral, it does monitor the market value of the collateral versus the repurchase amount, that the income from the collateral is paid to the Fund on a timely basis, and that the collateral is returned at the end of the reverse repurchase agreement. These agreements involve the risk that the market value of the securities purchased with the proceeds from the sale of securities received by the Fund may decline below the price of the securities that the Fund is obligated to repurchase and that the value of the collateral posted by the Fund increases in value and the counterparty does not return it. Because the Fund borrows under reverse repurchase agreements based on the estimated fair value of the pledged assets, the Fund's ongoing ability to borrow under its reverse repurchase facilities may be limited, and its lenders may initiate margin calls in the event of adverse changes in the market. A decrease in market value of the pledged assets may require the Fund to post additional collateral or otherwise sell assets at a time when it may not be in the best interest of the Fund to do so (see Note 6).
- (g) *Short- and Medium-term Notes* – The Fund has a short- and medium-term notes payable program as a funding vehicle to increase the amount available for investment. The short- and medium-term notes are issued from time to time in denominations of at least \$1,000 and maturing in periods of up to 270 days and over 270 days, respectively. The notes are collateralized by the pledge of certain securities of the Fund. The pledged securities are held by JPMorgan Chase Bank, N.A. (the Custodian), as collateral agent, for the benefit of the holders of the notes. Selling fees related to the issuance of medium-term notes are amortized throughout the term of the note or until its first call date. There were no short-term or medium-term notes outstanding for the six months ended March 31, 2024.
- (h) *Paydowns* – Realized gains and losses on mortgage-backed securities paydowns are recorded as an adjustment to interest income as required by GAAP. For purposes of dividend distributions, net investment income excludes the effect of mortgage-backed securities paydowns gains and losses. For the six months ended March 31, 2024, the Fund decreased interest income in the amount of \$77,704 related to net realized loss on mortgage-backed securities paydowns (see Note 10).

*March 31, 2024 (Unaudited)*

- (i) *Restructuring Expenses* – Legal expenses incurred by the Fund related to Puerto Rico bond restructurings have been accounted for as a realized loss.
- (j) *Other* – Security transactions are accounted for on the trade date (the date the order to buy or sell is executed). Realized gains and losses on security transactions are determined based on the identified cost method. Premiums and discounts on securities purchased are amortized over the life or the expected life of the respective securities using the effective interest method. Interest income on preferred equity securities is accrued daily except when collection is not expected. Dividend income on preferred equity securities is recorded on the ex-dividend date.

## **NOTE 2. FAIR VALUE MEASUREMENTS**

---

Under GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability.

GAAP establishes a fair value hierarchy that prioritizes the inputs and valuation techniques used to measure fair value into three levels in order to increase consistency and comparability in fair value measurements and disclosures. The classification of assets and liabilities within the hierarchy is based on whether the inputs to the valuation methodology used for the fair value measurement are observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect the Fund's estimates about assumptions that market participants would use in pricing the asset or liability based on the best information available. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

**Level 1** – Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Valuation on these instruments does not need a significant degree of judgment since valuations are based on quoted prices that are readily available in an active market.

**Level 2** – Quoted prices other than those included in Level 1 that are observable either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or that can be corroborated by observable market data for substantially the full term of the financial instrument.

**Level 3** – Unobservable inputs are significant to the fair value measurement. Unobservable inputs reflect the Fund's own assumptions about assumptions that market participants would use in pricing the asset or liability.

The Fund maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Fair value is based upon quoted market prices when available. If listed prices or quotes

*March 31, 2024 (Unaudited)*

are not available, the Fund employs internally developed models that primarily use market-based inputs including yield curves, interest rates, volatilities, and credit curves, among others. Valuation adjustments are limited to those necessary to ensure that the financial instrument's fair value is adequately representative of the price that would be received or paid in the marketplace. These adjustments include amounts that reflect counterparty credit quality, constraints on liquidity, and unobservable parameters that are applied consistently.

The estimated fair value may be subjective in nature and may involve uncertainties and matters of significant judgment for certain financial instruments. Changes in the underlying assumptions used in calculating fair value could significantly affect the results. In addition, the fair value estimates are based on outstanding balances without attempting to estimate the value of anticipated future business. Therefore, the estimated fair value may materially differ from the value that could actually be realized on a sale. The Fund monitors the portfolio securities to ensure they are in the correct hierarchy level.

The Board has delegated to the Valuation Committee, comprised of voting members of the Investment Advisers, certain procedures and functions related to the valuation of portfolio securities for the purpose of determining the NAV of the Fund. The Valuation Committee is generally responsible for determining the fair value of the following types of portfolio securities:

- Portfolio instruments for which no price or value is available at the time the Fund's NAV is calculated on a particular day;
- Portfolio instruments for which the prices or values available do not, in the judgment of the Investment Advisers, represent the fair value of the portfolio instruments;
- A price of a portfolio instrument that has not changed for four consecutive weekly pricing periods, except for Puerto Rico taxable securities and U.S. portfolio instruments;
- Puerto Rico taxable securities and the U.S. portfolio instruments whose value has not changed from the previous weekly pricing period.

Following is a description of the Fund's valuation methodologies used for assets and liabilities measured at fair value:

**Mortgage and other asset-backed securities:** Certain agency mortgage and other assets-backed securities ("MBS") are priced based on a bond's theoretical value derived from the prices of similar bonds; "similar" being defined by credit quality and market sector. Their fair value incorporates an option adjusted spread. The agency MBS and GNMA Puerto Rico Serials are classified as Level 2.

**Obligations of Puerto Rico and political subdivisions:** Obligations of Puerto Rico and political subdivisions are segregated, and the like characteristics divided into specific sectors. Market inputs used in the evaluation process include all or some of the following: trades, bid price or spread, quotes, benchmark curves including, but not limited to Treasury benchmarks, LIBOR and swap curves, and discount and capital rates. These bonds are classified as Level 2.

**Puerto Rico Tax Exempt Notes:** Prices for these securities are obtained from broker quotes. These securities trade in over-the-counter markets. Quoted prices are based on recent trading activity for

March 31, 2024 (Unaudited)

similar instruments and do not trade in highly liquid markets. Community endowments notes are generally classified as Level 2 and the pricing is based on their collateral.

**Obligations of U.S. government sponsored entities and state and municipal obligations:** The fair value of obligations of U.S. government sponsored entities and state and municipal obligations is obtained from third-party pricing service providers that use a pricing methodology based on an active exchange market and quoted market prices for similar securities. These securities are classified as Level 2. U.S. agency structured notes are priced based on a bond's theoretical value from similar bonds defined by credit quality and market sector, and for which the fair value incorporates an option adjusted spread in deriving their fair value. These securities are classified as Level 2.

The following is a summary of the levels within the fair value hierarchy in which the Fund invests based on inputs used to determine the fair value of such securities:

Investments in Securities at Value*	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
Government Bonds	\$ -	\$ 30,783,427	\$ -	\$ 30,783,427
Municipal Bonds	-	24,118,623	-	24,118,623
Mortgage-Backed Securities	-	4,268,014	110,725	4,378,739
<b>Total</b>	<b>\$ -</b>	<b>\$ 59,170,064</b>	<b>\$ 110,725</b>	<b>\$ 59,280,789</b>

\* Refer to the Schedule of Investments for a listing of securities by type.

The following is a reconciliation of the fair value of investments for which the Fund has used Level 3 unobservable inputs in determining fair value as of March 31, 2024:

Asset Type	Mortgage-Backed Securities	Total
Balance as of September 30, 2023	\$ 116,124	\$ 116,124
Accrued Discount/premium	(6,593)	(6,593)
Realized Gain/(Loss)	-	-
Change in Unrealized Appreciation/Depreciation	1,194	1,194
Purchases	-	-
Sales Proceeds	-	-
<b>Balance as of March 31, 2024</b>	<b>\$ 110,725</b>	<b>\$ 110,725</b>
Net change in unrealized appreciation/(depreciation) included in the Statements of Operations attributable to Level 3 investments held at March 31, 2024	\$ 1,194	\$ 1,194

March 31, 2024 (Unaudited)

The table below provides additional information about the Level 3 Fair Value Measurements as of March 31, 2024:

Investment Security	Fair Value	Valuation Technique	Unobservable Input(s)	Price
Conventional Mortgage Obligation	\$116,124	Discounted Cash Flow	Constant prepayment rate 4.97% Probability of default 10.72% Loss severity 7.60% Discount rate 15.09%	81.69

Temporary cash investments, if any, are valued at amortized cost, which approximates fair value. As of fiscal period-end there were no temporary cash investments.

### **NOTE 3. INVESTMENT ADVISORY, ADMINISTRATIVE, CUSTODY, AND TRANSFER AGENCY ARRANGEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES**

Pursuant to separate Investment Advisory Agreements with each of the Investment Advisers, the Fund receives advisory services in exchange for a fee. The investment advisory fee is calculated at an annual rate of 0.60% of the Fund's average weekly gross assets, including the liquidation value of all outstanding debt securities of the Fund, as defined in the Investment Advisory Agreements. For the six months ended March 31, 2024, the gross investment advisory fees amounted to \$177,803, of which \$12,751 remains payable at March 31, 2024. Total voluntarily waived fees amounted to \$103,718 for a net fee of \$74,085. There will be no recoupment of these voluntarily waived fees.

ALPS Fund Services, Inc. ("ALPS") and Banco Popular de Puerto Rico have been retained to serve as the Fund's administrator and transfer agent, respectively. Together with certain affiliated entities they provide various administration, fund accounting, investor accounting, and transfer agency services to the Fund. For the six months ended March 31, 2024, the administrative fees payable to ALPS amounted to \$56,278 of which \$32,347 remains payable at period end. For the six months ended March 31, 2024, the transfer agency fees payable to Banco Popular de Puerto Rico amounted to \$6,017 of which \$1,088 is payable at period end.

JPMorgan Chase Bank, N.A. has been retained to provide custody services to the Fund. For the six months ended March 31, 2024, the custody fee amounted to \$1,448.

Certain officers and directors of the Fund are also officers and directors of the Investment Advisers and/or their affiliates. The six independent directors of the Fund's Board are paid based upon an agreed fee of \$1,000 per meeting. Three of the independent directors of the Fund also serve on the Fund's Audit Committee and are paid based upon an agreed fee of \$1,000 per Audit Committee meeting. For the six months ended March 31, 2024, the compensation expense for the six independent directors of the Fund was \$13,465, of which \$3,681 remains payable at period end.

Prior to May 21, 2021, the Fund was not registered under the 1940 Act, and therefore was not subject to the restrictions contained therein regarding, among other things, transactions between the Fund, Banco Popular, and/or UBS Financial Services Inc. ("UBS Puerto Rico"), or their affiliates

March 31, 2024 (Unaudited)

("Affiliated Transactions"). In that regard, the Board had adopted a set of procedures for Affiliated Transactions in an effort to address potential conflicts of interest that could arise. See Note 13 for further information on recent events. There were no related party transactions during the period.

#### NOTE 4. CAPITAL SHARE TRANSACTIONS

Capital share transactions for the six months ended March 31, 2024, and the fiscal year ended September 30, 2023, were as follows:

	For the Six Months Ended March 31, 2024	For the Year Ended September 30, 2023
Common shares outstanding - beginning of period	14,834,103	14,830,781
Common shares issued as reinvestment of dividends	1,565	3,322
Common shares outstanding - end of period	14,835,668	14,834,103

#### NOTE 5. INVESTMENT TRANSACTIONS

The cost of securities purchased for the six months ended March 31, 2024, were \$82,912 and proceeds from sales, maturities/calls and paydowns of portfolio securities, excluding short-term transactions, for the six months ended March 31, 2024, were \$528,376. Reverse repurchase agreements entered into for the six months ended March 31, 2024, were \$123,356,460. There were no related party transactions during the period.

#### Puerto Rico Restructuring Plan Developments

In accordance with the Employee Retirement Plan ("ERS") stipulation, the Commonwealth exercised its option to purchase the Fund's interests in the ERS private equity portfolio on November 21, 2022. On that date, the Fund received \$113,016, based on its pro-rata share in satisfaction of its interest in the ERS private equity portfolio.

#### NOTE 6. REVERSE REPURCHASE AGREEMENTS

The Fund enters into reverse repurchase agreements that do not have third-party custodians with the collateral delivered directly to the counterparty. Pursuant to the terms of the standard SIFMA Master Repurchase Agreement, the counterparty is free to repledge or rehypothecate the collateral, provided it is delivered to the Fund upon maturity of the reverse repurchase agreement. This arrangement allows the Fund to receive better interest rates and pricing on the reverse repurchase agreements. While the Fund cannot monitor the rehypothecation of collateral, it does monitor the market value of the collateral versus the repurchase amount, that the income from the collateral is paid to the Fund on a timely basis, and that the collateral is returned at the end of the reverse repurchase agreement.

Weighted average interest rate at end of the period	5.62%
Maximum aggregate balance outstanding at any time during the period	\$19,569,000
Average balance outstanding during the period	\$11,273,483
Average interest rate during the period	2.99%

March 31, 2024 (Unaudited)

At March 31, 2024, interest rates on reverse repurchase agreements ranged from 5.55% to 6.00% with maturities up to October 17, 2023. Some of the outstanding agreements to repurchase as of March 31, 2024, may be called by the counterparty before their maturity date.

At March 31, 2024, investment securities with fair values amounting to \$10,995,000 are pledged as collateral for reverse repurchase agreements. The counterparties have the right to sell or repledge the assets during the term of the reverse repurchase agreement with the Fund. Interest payable on reverse repurchase agreements amounted to \$14,559 at March 31, 2024.

At March 31, 2024, the total value of reverse repurchase agreements were as follows:

Counterparty	Amount	%
Unaffiliated	\$11,284,329	100%
Total	\$11,284,329	100%

## NOTE 7. SHORT-TERM AND LONG-TERM FINANCIAL INSTRUMENTS

The fair market value of short-term financial instruments, which include \$12,000,000 in reverse repurchase agreements, are substantially the same as the carrying amounts reflected in the Statement of Assets and Liabilities as these are reasonable estimates of fair value, given the relatively short period of time between origination of the instrument and their expected realization. Securities sold under reverse repurchase agreements are classified as Level 2 securities under the Fair Value hierarchy. There are no long-term financial debt instruments outstanding at March 31, 2024.

## NOTE 8. CONCENTRATION OF CREDIT RISK

Concentrations of credit risk (whether on or off-balance sheet) that arise from financial instruments exist for groups of customers or counterparties when they have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. For this purpose, management has determined to disclose any investment whose fair value is over 5% of net assets, both individually or in the aggregate. Moreover, collateralized investments have been excluded for this disclosure.

The major concentration of credit risk arises from the Fund's investment securities in relation to the location of issuers. For calculation of concentration, all fixed-income securities guaranteed by the U.S. government are excluded. At March 31, 2024, the Fund had investments with an aggregate market value of \$24,118,623 which were issued by entities located in Puerto Rico and are not guaranteed by the U.S. government nor the Puerto Rico government. Also, at March 31, 2024, the Fund had investments with market values of \$3,240,805, \$88,436 and \$938,773, which were each issued by one issuer located in the United States of America and are not guaranteed by the U.S. government.

Under normal circumstances, the Fund invests, as market conditions permit, at least 67% of its total assets in Puerto Rico obligations ("the 67% Investment Requirement"). Therefore, to the extent the securities are not guaranteed by the U.S. government or any of its subdivisions, the Fund is more

*March 31, 2024 (Unaudited)*

susceptible to factors adversely affecting issuers of Puerto Rico obligations than an investment company that is not concentrated in Puerto Rico obligations to such degree.

## **NOTE 9. INVESTMENT AND OTHER REQUIREMENTS AND LIMITATIONS**

---

The Fund is subject to certain requirements and limitations related to investments and leverage. Some of these requirements and limitations are imposed statutorily or by regulation while others are by procedures established by the Board. The most significant requirements and limitations are discussed below.

The Fund invests under normal circumstances, at least 67% of its total assets, including borrowings for investment purposes, in securities issued by Puerto Rico entities. A "Puerto Rico entity" or a "Puerto Rico security" is any entity or security that satisfies one or more of the following criteria: (i) securities of issuers that are organized under the laws of Puerto Rico or that maintain their principal place of business in Puerto Rico; (ii) securities that are traded principally in Puerto Rico; or (iii) securities of issuers that, during the issuer's most recent fiscal year, derived at least 20% of their revenues or profits from goods produced or sold, investments made, or services performed in Puerto Rico or that have at least 20% of their assets in Puerto Rico. While the Fund intends to comply with the above 67% Investment Requirement as market conditions permit, the Fund's ability to procure sufficient Puerto Rico securities which meet the Fund's investment criteria may be constrained, due to the volatility affecting the Puerto Rico bond market since 2013 and the fact that the Puerto Rico government is currently in the process of restructuring its outstanding debt under Title III of the Puerto Rico Oversight, Management, and Economic Stability Act. To the extent that the Fund is unable to procure sufficient amounts of such Puerto Rico securities, the Fund may acquire investments in securities of non-Puerto Rico issuers which satisfy the Fund's investment criteria, provided its ability to comply with its tax-exempt policy is not affected, but the Fund will ensure that its investments in Puerto Rico securities will constitute at least 20% of its assets.

The Fund invests, except where the Fund is unable to procure sufficient Puerto Rico Securities that meet the Fund's investment criteria, in the opinion of the Investment Advisers, or other extraordinary circumstances, up to 33% of its total assets in securities issued by non-Puerto Rico entities. These include securities issued or guaranteed by the U.S. government, its agencies and instrumentalities, non-Puerto Rico mortgage-backed and asset-backed securities, corporate obligations and preferred stock of non-Puerto Rico entities, municipal securities of issuers within the U.S., and other non-Puerto Rico securities that the Investment Adviser may select, consistent with the Fund's investment objectives and policies.

The Fund may increase amounts available for investment through the issuance of preferred stock, debt securities or other forms of leverage ("Senior Securities"). The Fund may only issue Senior Securities representing indebtedness to the extent that immediately after their issuance, the value of its total assets, less all the Fund's liabilities and indebtedness that are not represented by Senior Securities being issued or already outstanding, is equal to or greater than the total of 300% of the aggregate par value of all outstanding indebtedness issued by the Fund. The Fund may only issue Senior Securities representing preferred stock to the extent that immediately after any such issuance, the value of its total assets, less all the Fund's liabilities and indebtedness that are not represented by Senior Securities being issued or already outstanding, is equal to or greater than the total of 200% of the aggregate par value of all outstanding preferred stock (not including any

March 31, 2024 (Unaudited)

accumulated dividends or other distributions attributable to such preferred stock) issued by the Fund. This asset coverage requirement must also be met any time the Fund pays a dividend or makes any other distribution on its issued and outstanding shares of common stock or any shares of its preferred stock (other than a dividend or other distribution payable in additional shares of common stock) as well as any time the Fund repurchases any shares of common stock, in each case after giving effect to such repurchase of shares of common stock or issuance of preferred stock, debt securities, or other forms of leverage in order to maintain asset coverage at the required 200% level. To the extent necessary, the Fund may purchase or redeem preferred stock, debt securities, or other forms of leverage in order to maintain asset coverage at the required 200% level. In such instances, the Fund will redeem Senior Securities as needed to maintain such asset coverage. The Fund, subject to the above percentage limitations, may also engage in certain additional borrowings from banks or other financial institutions through reverse repurchase agreements. In addition, the Fund may also borrow for temporary or emergency purposes, in an amount of up to an additional 5% of its total assets.

#### **NOTE 10. RECONCILIATION BETWEEN NET INVESTMENT INCOME AND DISTRIBUTABLE NET INVESTMENT INCOME FOR TAX PURPOSES AND NET REALIZED LOSS ON INVESTMENTS AND NET REALIZED LOSS ON INVESTMENTS FOR INCOME TAX PURPOSES**

As a result of certain reclassifications made for financial statement presentation, the Fund's net investment income and net realized loss on investments reflected in the financial statements differ from distributable net investment income and net realized loss on investments for tax purposes, respectively, as follows:

Net investment income	\$	1,085,177
Reclassification of realized gain (loss) on securities' paydowns		5,987
Distributable net investment income for tax purposes	\$	1,091,164
<hr/>		
Net realized loss on investments	\$	25,066
Reclassification of realized gain (loss) on securities' paydowns		(8,987)
Net realized loss on investments, for tax purposes	\$	16,079

The amount of net unrealized appreciation/(depreciation) and the cost of investment securities for tax purposes was as follows:

Cost of investments for tax purposes	\$	58,854,560
Gross appreciation		657,972
Gross depreciation		(231,743)
Net appreciation/(depreciation)	\$	426,229

#### **Tax Basis of Distributions to Shareholders:**

The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. Also, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which the income or realized gain were recorded by the Fund. The amounts and characteristics

March 31, 2024 (Unaudited)

of tax basis distributions are estimated at the time of distribution and composition of distributable earnings/(accumulated losses) are finalized at fiscal year-end.

For the six months ended March 31, 2024, the Fund distributed \$815,957 from ordinary income. The undistributed net investment income and accumulated net realized loss on investments (for tax purposes) at March 31, 2024, were as follows:

Undistributed net investment income, beginning of the period	\$	1,967,225
Distributable net investment income for the period		1,085,177
Dividends		(815,957)
Undistributed net investment income, end of the period	\$	2,236,445
Accumulated net realized loss on investments, beginning of the period	\$	(141,021,396)
Net realized loss on investments for the period		25,066
Accumulated net realized loss on investments, end of the period	\$	(140,996,330)

## NOTE 11. INDEMNIFICATIONS

In the normal course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these agreements is unknown. However, the Fund has not paid prior claims or losses pursuant to these contracts and expects the risk of losses to be remote.

## NOTE 12. RISKS AND UNCERTAINTIES

The Fund is exposed to various types of risks, such as geographic concentration, industry concentration, non-diversification, interest rate, and credit risks, and pandemic or other public health threats, among others. This list is qualified by reference to the more detailed information provided in the prospectus for the securities issued by the Fund.

The Fund's assets are invested primarily in securities of Puerto Rico issuers. As a result, the Fund has greater exposure to adverse economic, political or regulatory changes in Puerto Rico than a more geographically diversified fund, particularly with regard to municipal bonds issued by the Commonwealth and its related instrumentalities, which are currently experiencing significant price volatility and low liquidity. Also, the Fund's NAV and its yield may increase or decrease more than that of a more diversified investment company as a result of changes in the market's assessment of the financial condition and prospects of such Puerto Rico issuers.

Interest rate risk is the risk that interest rates will rise so that the value of existing fixed rate securities will fall. Low long-term rates present the risk that interest rates may rise and that as a result the Fund's investments will decline in value. Also, the Fund's yield will tend to lag behind changes in prevailing short-term interest rates. In addition, during periods of rising interest rates, the average life of certain types of securities may be extended because of the right of the issuer to defer payments or make slower than expected principal payments. This may lock-in a below market interest rate, increase the security's duration (the estimated period until the security is paid in full), and reduce the value of the security. This is known as extension risk, which the Fund is also subject

*March 31, 2024 (Unaudited)*

to. Conversely, during periods of declining interest rates, the issuer of a security may exercise its option to prepay principal earlier than scheduled in order to refinance at lower interest rates, forcing the Fund to reinvest in lower yielding securities. This is known as prepayment risk, which the Fund is also subject to.

Credit risk is the risk that debt securities in the Fund's portfolio will decline in price or fail to make dividend or interest payments when due because the issuer of the security experiences a decline in its financial condition. The risk is greater in the case of securities rated below investment grade or rated in the lowest investment grade category.

The Fund may engage in reverse repurchase agreements, which are transactions in which the Fund sells a security to a counterparty and agrees to buy it back at a specified time and price in a specified currency. Reverse repurchase agreements involve the risk that the buyer of the securities sold by the Fund might be unable to deliver the securities when the Fund seeks to repurchase them and may be unable to replace the securities or only at a higher cost.

Mortgage-backed securities in which the Fund may invest have many of the risks of traditional debt securities but, in general, differ from investments in traditional debt securities in that, among other things, principal may be prepaid at any time due to prepayments by the obligors on the underlying obligations. As a result, the Fund may receive principal repayments on these securities earlier or later than anticipated by the Fund. In the event of prepayments that are received earlier than anticipated, the Fund may be required to reinvest such prepayments at rates that are lower than the anticipated yield of the prepaid obligation. The rate of prepayments is influenced by a variety of economic, geographic, demographic, and other factors, including, among others, prevailing mortgage interest rates, local and regional economic conditions, and homeowner mobility. Since a substantial portion of the assets of the Fund may be invested in mortgage-backed securities at any time, the Fund may be subject to these risks and other risks related to such securities to a significant degree, which might cause the market value of the Fund's investments to fluctuate more than otherwise would be the case. Collateralized mortgage obligations ("CMOs") exhibit similar risks to those of mortgage-backed securities, but also present certain special risks. CMO classes may be specially structured in a manner that provides a variety of investment characteristics, such as yield, effective maturity, and interest rate sensitivity. As market conditions change, however, particularly during periods of rapid or unanticipated changes in interest rates, the ability of a CMO class to provide the anticipated investment characteristics and performance may be significantly reduced. These changes may result in volatility in the market value, and in some instances, reduced liquidity of the CMO class.

The Fund may also invest in illiquid securities which are securities that cannot be sold within a reasonable period of time, not to exceed seven days, in the ordinary course of business at approximately the amount at which the Fund has valued the securities. There presently are a limited number of participants in the market for certain Puerto Rico securities or other securities or assets that the Fund may own. That and other factors may cause certain securities to have periods of illiquidity. Illiquid securities may trade at a discount from comparable, more liquid investments.

There may be few or no dealers making a market in certain securities owned by the Fund, particularly with respect to securities of Puerto Rico issuers including, but not limited to, investment companies. Dealers making a market in those securities may not be willing to provide quotations on a regular basis to the Investment Advisers. It may, therefore, be particularly difficult to value those securities.

*March 31, 2024 (Unaudited)*

In order to attempt to hedge various portfolio positions or to enhance its return, the Fund may invest a portion of its total assets in certain instruments which are or may be considered derivatives. Because of their increased volatility and potential leveraging effect (without being subject to the Fund's leverage limitations), derivative instruments may adversely affect the Fund. For example, investments in indexed securities, including, among other things, securities linked to an equities or commodities index and inverse floating rate securities, may subject the Fund to the risks associated with changes in the particular indices, which may include reduced or eliminated interest payments and losses of invested principal. Such investments, in effect, may also be leveraged, thereby magnifying the risk of loss. Since the Fund does not hold any derivatives as of March 31, 2024, SEC Rule 18f-4 has no impact on the Fund.

---

**NOTE 13. SUBSEQUENT EVENTS**

---

On October 31, 2023, the Board declared an ordinary net investment income dividend of \$0.00917 per common share, totaling \$136,017 which was paid on November 13, 2023, to common shareholders of record as of October 30, 2023.

Popular Asset Management LLC notified the Board of its resignation as Co-Investment Advisor to the Fund effective June 17, 2024. UBS Asset Managers of Puerto Rico is currently in discussions with the Board regarding future management of the Fund.

The Fund has performed an evaluation of events occurring subsequent to March 31, 2024, through May 30, 2024, which is the date the financial statements were available to be issued. Management has determined that there were no events that occurred during this period that required disclosure in, or adjustment to, the accompanying financial statements other than those disclosed above.

March 31, 2024 (Unaudited)

**Unitholder Meeting**

The overall management of the business and affairs of the Fund is vested with Banco Popular de Puerto Rico and UBS Trust Company of Puerto Rico (formerly known as PaineWebber Trust Company of Puerto Rico), as co-trustees of the Fund (the “Trustees”) and the Board of Directors. The Fund does not hold annual or other regular meetings of unitholders for the purpose of electing directors or otherwise. The unitholders do not have the right to elect directors, except for upon the written request of holders of at least 10% of the Fund’s outstanding units or at such time as less than a majority of the members of the Board consists of directors who were not (i) initially selected to serve on the Board or (ii) elected by the unitholders. In the latter case, directors will be elected so that at least two-thirds of the directors holding office shall have been elected by the unitholders.

At inception of the Fund, the initial members of the Board of Directors were appointed by the Trustees and UBS Financial Services Inc. (formerly known as PaineWebber Incorporated of Puerto Rico) and Popular Securities, LLC, in their capacities as co-settlers and unitholders / co-sponsors of the Fund. Subsequently, upon the occurrence of any vacancy and in accordance with the Fund’s Deed of Trust, as amended, such vacancy was filled by appointment by a majority of the remaining members of the Board of Directors or, if an independent director, by appointment by a majority of the remaining independent directors.

A unitholder meeting was called because less than a majority of the members of the Board consisted of persons other than the directors initially selected or subsequently elected by the unitholders to serve on the Board. Such unitholder meeting was held on September 14, 2023 (the “Unitholder Meeting”). The voting results for the proposals considered at the Unitholder Meeting were as follows:

1. Election of Directors. The stockholders of the Fund elected Luis Pellot and Jorge Vallejo to the Board of Directors, to hold office until his removal, resignation, attaining the age of 80 years, or death.

Name of Director	Votes cast “For”	Votes “Against/Withheld”
Luis Pellot	322,435	1,131,671
Jorge Vallejo	322,768	1,131,338

**Statement Regarding Availability of Quarterly Portfolio Schedule**

Until registration under the 1933 Act becomes effective, the Fund is not required to submit Form N-PORT to the U.S. Securities and Exchange Commission (the “SEC”). After registration becomes effective, the Fund will file its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The Fund’s Form N-PORT reports will be available on the SEC’s website at <http://www.sec.gov>. The quarterly schedule of portfolio holdings will be made available upon request by calling 787-764-1788.

*March 31, 2024 (Unaudited)***Statement Regarding Availability of Proxy Voting Policies and Procedures and Proxy Voting Record**

A description of the Fund's policies and procedures that are used by the Investment Advisers to vote proxies relating to the Fund's portfolio securities and information regarding how the Investment Advisers voted proxies relating to the Fund's portfolio securities during the most recent 12-month period ended June 30 are available without charge upon request, by calling 787-764-1788 and on the SEC's website at <http://www.sec.gov>.

March 31, 2024 (Unaudited)

The Board of Puerto Rico Residents Bond Fund I met on May 23, 2024 (the “Meeting”), to consider the approval of the investment advisory agreements (the “Advisory Agreements”) by and between the Fund and Popular Asset Management and by and between the Fund and UBS Asset Managers of Puerto Rico, the Fund’s co-investment advisers (each, an “Investment Adviser” and collectively, the “Investment Advisers”). At such meeting, the Board participated in comparative performance reviews with the portfolio managers of the Investment Advisers, in conjunction with other Fund service providers, and considered various investment and trading strategies used in pursuing the Fund’s investment objective. The Board also evaluated issues pertaining to industry and regulatory developments, compliance procedures, fund governance, and other issues with respect to the Fund and received and participated in reports and presentations provided by the Investment Advisers with respect to such matters.

The independent members of the Board (the “Independent Directors”) were assisted throughout the contract review process by Willkie Farr & Gallagher LLP, as their independent legal counsel. The Board relied upon the advice of such counsel and their own business judgment in determining the material factors to be considered in evaluating the Advisory Agreements and the weight to be given to each such factor. The conclusions reached with respect to the Advisory Agreements were based on a comprehensive evaluation of all the information provided and not any single factor. Moreover, each Director may have placed varying emphasis on particular factors in reaching conclusions with respect to the Advisory Agreements. In evaluating the Advisory Agreements, including the specific fee structures and other terms of such agreements, the Board was informed by multiple years of analysis, and discussion amongst themselves and the Investment Advisers. The Board, including a majority of Independent Directors, concluded that the terms of the Advisory Agreements for the Fund were fair and reasonable and that the Investment Advisers’ fees were reasonable in light of the services provided to the Fund.

**Nature, Extent and Quality of Services.** In evaluating the Advisory Agreements, the Board considered, in relevant part, the nature, extent and quality of the Investment Advisers’ services to the Fund.

The Board considered the vast array of management, oversight, and administrative services the Investment Advisers provide to manage and operate the Fund, the increase of such services over time due to new or revised market, regulatory, or other developments (e.g., liquidity management and cybersecurity programs), and the resources and capabilities necessary to provide these services. The Independent Directors recognized that the Investment Advisers provide portfolio management services for the Fund and, additionally, the Board considered the wide range of administrative and/or “non-advisory” services the Investment Advisers provide to manage and operate the Fund (complimentary to those provided by other third parties). These services include, but are not limited to, administrative services (e.g., providing the employees and officers necessary for the Fund’s operations); operational expertise (e.g., providing portfolio accounting and addressing complex pricing issues, corporate actions, foreign registrations, and foreign filings, as may be necessary); oversight of third-party service providers (e.g., coordinating and evaluating the services of the Fund’s custodian, transfer agent, and other intermediaries); Board support and administration (e.g., overseeing the organization of Board and committee meetings and preparing or overseeing the timely preparation of various materials and/or presentations for such meetings); fund share transactions (monitoring daily purchases and redemptions); shareholder communications (e.g., overseeing the preparation of annual and semi-annual and other periodic shareholder reports); tax administration; and compliance services (e.g., helping to maintain and update the Fund’s compliance program and related policies and procedures as necessary or

March 31, 2024 (Unaudited)

appropriate to meet new or revised regulatory requirements and reviewing such program annually; overseeing the preparation of the Fund's registration statements and regulatory filings; overseeing the valuation of portfolio securities and daily pricing; helping to ensure the Fund complies with its portfolio limitations and restrictions; voting proxies on behalf of the Fund; monitoring the liquidity of the portfolios; providing compliance training for personnel; and evaluating the compliance programs of the Fund's service providers). In evaluating such services, the Board considered, among other things, whether the Fund has operated in accordance with its investment objective(s) and the Fund's record of compliance with its investment restrictions and regulatory requirements.

In addition to the services provided by the Investment Advisers, the Independent Directors also considered the risks borne by the Investment Advisers in managing the Fund in a highly regulated industry, including various material entrepreneurial, reputational, and regulatory risks. Based on their review, the Independent Directors found that, overall, the nature, extent and quality of services provided under the Advisory Agreements were satisfactory on behalf of the Fund.

**Investment Performance of the Fund.** In evaluating the quality of the services provided by the Investment Advisers, the Board also received and considered the investment performance of the Fund. In this regard, the Board received and reviewed a report prepared by Broadridge which generally provided the Fund's performance data for the one-, three-, five-, and ten- year periods ended December 31, 2023 (or for the periods available for the Fund that did not exist for part of the foregoing timeframe) on an absolute basis and as compared to the performance of unaffiliated comparable funds (the "Broadridge Peer Group"). The Board was provided with information describing the methodology Broadridge used to create the Broadridge Peer Group. The performance data prepared for the review of the Advisory Agreements supplements the performance data the Board received throughout the year as the Board regularly reviews and meets with portfolio manager(s) to discuss, in relevant part, the performance of the Fund.

**Fees and Expenses.** As part of its review, the Board also considered, among other things, the contractual management fee rate and the net management fee rate (i.e., the management fee after taking into account expense reimbursements and/or voluntary fee waivers, if any) paid by the Fund to the Investment Advisers in light of the nature, extent and quality of the services provided. The Board also considered the net total expense ratio of the Fund in relation to those of a comparable group of funds (the "Broadridge Expense Group"). The Board considered the net total expense ratio of the Fund (expressed as a percentage of average net assets) as the expense ratio is more reflective of the shareholders' costs in investing in the Fund.

In evaluating the management fee rate, the Board considered the Investment Advisers' rationale for proposing the management fee rate of the Fund which included its evaluation of, among other things, the value of the potential services being provided (e.g., the expertise of the Investment Advisers with the proposed strategy), the competitive marketplace (i.e., the uniqueness of the Fund and the fees of competitor funds), and the economics to the Investment Advisers (e.g., the costs of operating the Fund). The Board considered, among other things, the voluntary expense limitations and/or fee waivers proposed by the Investment Advisers to keep expenses at or below certain levels and reviewed the amounts the Investment Advisers had voluntarily waived or reimbursed over the last fiscal years; they considered the costs incurred and resources necessary in effectively managing mutual funds, particularly given the costs in attracting and maintaining quality and experienced portfolio managers and research staff. The

attracting and maintaining quality and experienced portfolio managers and research staff. The Board further considered the Fund's net management fee and net total expense ratio in light of its performance history.

**Profitability.** In conjunction with their review of fees, the Independent Directors reviewed information reflecting each Investment Adviser's financial condition. The Independent Directors reviewed the consolidated financial statements of each Investment Adviser for the year ended December 31, 2023. The Independent Directors also considered the overall financial condition of each Investment Adviser and their respective representations regarding the stability of each firm, their operating margins, and the manner in which they fund their future financial commitments, such as employee deferred compensation programs. The Independent Directors also reviewed the profitability information for each Investment Adviser derived from its relationship with the Fund with the most recently available financial information. The Independent Directors evaluated, among other things, each Investment Adviser's estimated revenues, expenses, net income, and the net profit margins.

**Economies of Scale and Whether Fee Levels Reflect These Economies of Scale.** In evaluating the reasonableness of the investment advisory fees, the Board considered the existence of any economies of scale in the provision of services by the Investment Advisers and whether those economies are appropriately shared with the Fund. In its review, the Independent Directors recognized that economies of scale are difficult to assess or quantify, particularly on a fund-by-fund basis, and certain expenses may not decline with a rise in assets. The Independent Directors further considered that economies of scale may be shared in various ways, including breakpoints in the management fee schedule, voluntary fee waivers and/or expense limitations, pricing of the Fund at scale at inception, or other means.

The Board considered that not all funds have breakpoints in their fee structures and that breakpoints are not the exclusive means of sharing potential economies of scale. The Board and the Independent Directors considered each Investment Adviser's statement that it believes that breakpoints would not be appropriate for the Fund at this time given uncertainties regarding the direction of the economy, rising inflation, increasing costs for personnel and systems, and growth or contraction in the Fund's assets, all of which could negatively impact the profitability of each Investment Adviser. In addition, the Investment Advisers noted that since the Fund is a closed-end fund, and based upon the Fund's current operating policies, the ability to raise additional assets is limited. Considering the factors above, the Independent Directors concluded the absence of breakpoints in the management fee was acceptable and that any economies of scale that exist are adequately reflected in the Investment Advisers' fee structures.

**Indirect Benefits.** The Independent Directors received and considered information regarding indirect benefits the Investment Advisers may receive as a result of their relationship with the Fund. The Independent Directors further considered the reputational and/or marketing benefits the Investment Advisers may receive as a result of their association with the Fund. The Independent Directors took these indirect benefits into account when assessing the level of advisory fees paid to the Investment Advisers and concluded that the indirect benefits received were reasonable.

The Fund is committed to protecting the personal information that it collects about individuals who are prospective, former, or current investors.

If you are located in a jurisdiction where specific laws, rules or regulations require the Fund to provide you with additional or different privacy-related rights beyond what is set forth below, then the Fund will comply with those specific laws, rules or regulations.

The Fund collects personal information for business purposes to process requests and transactions and to provide customer service. Personal information is obtained from the following sources:

- Investor applications and other forms,
- Written and electronic correspondence,
- Telephone contacts,
- Account history (including information about Fund transactions and balances in your accounts with the Distributor or our affiliates, other fund holdings in the UBS family of a funds and any affiliation with the Distributor and its affiliates),
- Website visits,
- Consumer reporting agencies.

The Fund limits access to personal information to those employees who need to know that information in order to process transactions and service accounts. Employees are required to maintain and protect the confidentiality of personal information. The Fund maintains physical, electronic, and procedural safeguards to protect personal information.

The Fund may share personal information described above with their affiliates for business purposes, such as to facilitate the servicing of accounts. The Fund may share the personal information described above for business purposes with a non-affiliated third party only if the entity is under contract to perform transaction processing, servicing, or maintaining investor accounts on behalf of the Fund. The Fund may share personal information with its affiliates or other companies who are not affiliates of the Fund that perform marketing services on the Fund' behalf or to other financial institutions with whom it has marketing agreements for joint products or services. These companies are not permitted to use personal information for any purposes beyond the intended use (or as permitted by law). The Fund does not sell personal information to third parties for their independent use. The Fund may also disclose personal information to regulatory authorities or otherwise as permitted by law.
